#### ADDITIONAL INFORMATION USED BY THE ACTUARY

The primary purpose of the actuarial valuation is to determine the annual required contribution for each fiscal year. In preparing the valuation, the actuary relied on data provided by Cleveland County and the NC-LGERS. To verify the data, the actuary performed tests for reasonableness and consistency. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information used to actuarily determine the annual required contribution for the reported fiscal year and the subsequent fiscal year follows:

Amortization method of unfunded liability (for both years shown)		level percent of pay, closed basi	
Actuarial cost method (for both years shown) **		projected unit cr	edit **
Asset valuation method (for both years shown)		market value	
For the year ended	June 30, 2009		June 30, 2010
Valuation date	Dec 31, 2007		Dec 31, 2008
Remaining amortization period	23 years		22 years
Actuarial assumptions (projected rates):			
Projected rate of adjustments for cost-of-Living	0.00%		0.00%
Projected rate of return on investments *	7.25%		7.25%
Projected rate of salary increases *	4.5 to 12.3%		4.5 to 12.3%
* Includes projected rate of inflation	3.75%		3.75%

<sup>\*\*</sup> Under the projected unit credit method of valuing the actuarial cost, the projected benefits of each individual included in the actuarial valuation are allocated to valuation years based on service. The actuarial present value of benefits allocated to the current year is called the normal cost. The actuarial present value of benefits allocated to all periods prior to the valuation year is called the actuarial accrued liability. The excess of the actuarial accrued liability over current assets is the unfunded actuarial accrued liability. The actuarially determined contribution requirements consist of the normal cost and amortization of the unfunded actuarial accrued liability within a 25-year period, assuming inflation will grow at 3.75% annually.

#### ADDITIONAL INFORMATION USED BY THE ACTUARY

The primary purpose of the actuarial valuation is to determine the annual required contribution for each fiscal year. In preparing the valuation, the actuary relied on data provided by Cleveland County and the NC-LGERS. To verify the data, the actuary performed tests for reasonableness and consistency. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information used to actuarily determine the annual required contribution for the reported fiscal year and the subsequent fiscal year follows:

Amortization method of unfunded liability (for both years shown)	)	level percent of p	oay, open basis
Actuarial cost method (for both years shown) **		projected unit cr	edit **
Asset valuation method (for both years shown)		market value	
For the year ended	June 30, 2009		June 30, 2010
Valuation date	Dec 31, 2008		Dec 31, 2008
Remaining amortization period	30 years		30 years
Actuarial assumptions (projected rates):			
Projected rate of increases to medical costs	10.5% to 5.0%		10.5% to 5.0%
<ul> <li>Year of yltimate trend rate</li> </ul>	2016		2016
Projected Rate of Return on Investments *	4.00%		4.00%
* Includes projected rate of inflation	3.75%		3.75%

<sup>\*\*</sup> Under the projected unit credit method of valuing the actuarial cost, the projected benefits of each individual included in the actuarial valuation are allocated to valuation years based on service. The actuarial present value of benefits allocated to the current year is called the normal cost. The actuarial present value of benefits allocated to all periods prior to the valuation year is called the actuarial accrued liability. The excess of the actuarial accrued liability over current assets is the unfunded actuarial accrued liability. The actuarially determined contribution requirements consist of the normal cost and amortization of the unfunded actuarial accrued liability within a 30-year period, assuming inflation will grow at 3.75% annually.

The Non-major Governmental Funds Financial Statements include the combining balance sheet and combining statement of revenues, expenditures, and changes in fund balance for non-major special revenue funds, debt service fund, and capital projects funds that comprise the other governmental, non-major funds column in the Basic Financial Statements. The individual fund financial statements follow the combining statements.

The primary purpose of Special Revenue Funds is to account for the proceeds of designated revenue sources that are restricted by law or administrative action for specific purposes. Items c through h from the list above represent different Special Revenue Funds.

The purpose of the Capital Projects and Capital Reserve Funds is to account for the financial resources segregated for the acquisition or construction of major general capital assets and facilities. The budgets within these funds are adopted for the life of the project. Under the project accounting concept, project expenditures, and revenues are accumulated until the year in which the project is completed.

# Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2009 II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION D. Required Supplementary Information: 5. Major Enterprise Fund Financial Schedule

<u>Identifier</u> <u>Page No.</u>

a. Solid Waste Disposal and Collection Fund: Schedule of Revenues and Expenditures -- Budget to Actual; non-GAAP modified accrual basis

Exhibit II.D.5.a 119

The County's sole Enterprise Fund is the Solid Waste Disposal and Collection Fund. This fund is used to account for the operations in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods and services to the general public be recovered through user charges.

The following schedule presents the results of operations for the Enterprise Fund on the modified accrual basis for comparison to the legally adopted budget. In accordance with generally accepted accounting principles, the end of the schedule includes a reconciliation of the modified accrual basis to the full accrual basis.

The County's fiduciary funds are used to account for resources received and held by the County as the trustee or for which the County acts as agent. The fiduciary funds are:

Fines and Forfeitures Agency Fund

Inmate Agency Fund

Property Tax Agency Fund

Rescue Squad Agency Fund

Social Services Agency Fund

The County also has granted retired employees access to certain pos- employment benefits, such as pension payments and healthcare, for a limited time. The County has decided not to advance any funds toward these future expenditures, instead electing to pay the expenditures as they become due. Related activities include the following:

Law Enforcement Officers' Special Separation Allowance
