Cleveland County, North Carolina Annual and Financial Compliance Report For the Year Ended June 30, 2011 I: PREFACE AND INTRODUCTION A. Message from the County Manager

October 22, 2011

To the Citizens, Cleveland County Board of Commissioners, and other interested readers:

North Carolina General Statute (NCGS) 159-34(a) requires the County to contract with a certified public accountant to 1) have the financial records audited as soon as possible after the close of each year and 2) evaluate the County's performance with regard to compliance with all applicable federal and state regulations. The statute also requires that the auditor be permitted access to all records and other information upon request. In January 2011, the County entered a contract with Martin Starnes & Associates, CPAs, P.A. to conduct the audit for the fiscal year ended June 30, 2011. The auditor was permitted access to all requested information and no significant deficiencies have been noted. As of the date of this letter, the auditor's work is virtually completed.

More importantly, as the foundation of the County's financial planning and control, the annually adopted budget gives direction to County departments. The remaining text below is excerpted from a message concerning the budget for the fiscal year ending June 30, 2012.

The Board of Commissioners met on May 17, 2011 to discuss and evaluate budget and capital project priorities for fiscal year 2011-2012. The county has been facing challenging economic conditions over the past several years that have negatively affected county revenues, but because of the Commissioners strong leadership and sound fiscal management, Cleveland County has been able to present a balanced budget with no tax increase and no reduction in county funded services.

General Fund Budget

The projected tax base for fiscal year 2011-2012 is \$6,725,000,000. This is a projected increase of \$175,000,000 in value over the previous year, which translates into \$967,575 in new revenue at a 57 cents tax rate and a 97% collection rate. Sales tax revenues are projected to stabilize this year but will still not rise to the levels from several years ago. Overall service-related fee collections also seem to have reached the bottom and are increasing slightly over last year. We have recently seen a slight increase in residential building permits. We hope this trend continues through the coming year. We must continue to recruit new businesses to our community. Growth in the tax base and sales taxes must increase to match our mandated spending requirements or our current allocated funding levels will be difficult to sustain over time.

The budget includes an increase in the hourly rate for the County Attorney from \$175 to \$220 per hour. This rate has not increased since July 1, 2007.

Human Services

The overall appropriation of county funding for the *Department of Social Services* is \$4,323,824 for a decrease in funding of 4.99% over the previous year. This decrease is primarily the result of the department's efforts in creating operational efficiencies.

The *Health Department* budget reflects an overall decrease of 0.37% for a total county appropriation of \$3,689,336. A Social Worker I, two Public Health Nurse IIs, and a Public Health Nurse II (50%) have been added to the Health Department. All of these new positions are fully funded by Carolina Access grant funds. This budget also includes a reduction in force of a Computing Consultant I position (012.538.2052).

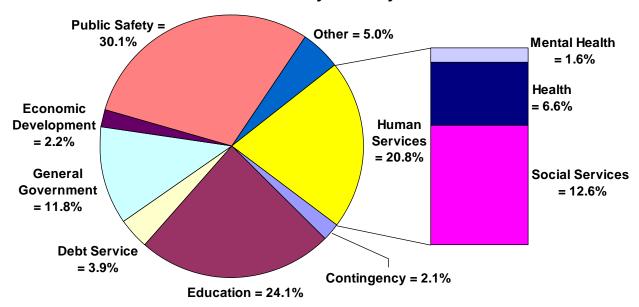

Due to the depressed economic conditions that exist throughout the nation and the state, all of the county's human service agencies are experiencing an increase in caseload volume. The high unemployment rate is also resulting in a higher number of citizens without health insurance coverage which directly affects the need for increased government assistance. Although the client caseloads have increased, county employees are working diligently to maintain services at the same staffing levels.

Landfill (Enterprise Fund)

The annual base household fee to operate the convenience centers will be increasing from \$50 to \$60. This is the first time that this fee has been increased since being instituted over twenty years ago. Those that have municipal garbage collection will see an adjustment in their fees in proportion to the change in the base fee rate. We have been working on finalizing plans for the recovery and beneficial uses of the methane gas produced by the landfill. This renewable energy resource will be converted to electricity or used by a local industry as a heating source.

Cleveland County Expenditures

FY 2011-2012 Primary Fund By Function

Public Safety

The *Emergency Medical Services* department budget is allocated a total of \$5,420,099. This department budget reflects an increase of 0.64%, with most of the additional funds consisting of part time salaries, billing company fees, and minor equipment purchases. A new ambulance and a quick response vehicle (QRV) are also included in the budget.

The *Sheriff's Office* budget reflects an increase of 3.02% for a total appropriation of \$5,745,932. This budget includes the addition of 11 new Sheriff's vehicles to replace current high mileage vehicles.

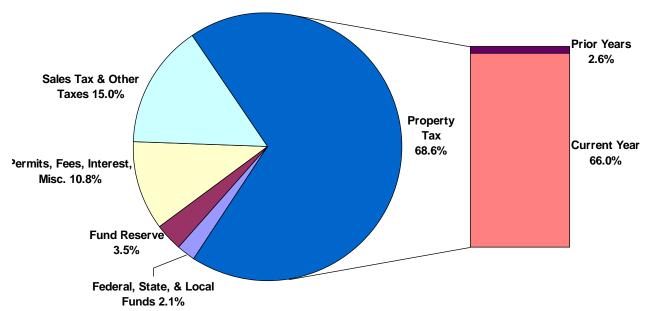

Mobile data terminals have been purchased for all emergency vehicles in the Sheriff's Office, Emergency Medical Services, and Emergency Management. These terminals will give emergency personnel instant data access while in the field. The budget will include funding for the operation of this important public safety communication equipment.

Volunteer Fire Service Districts

All fire service district tax rates will remain unchanged from last fiscal year. It is often difficult for many volunteers to be available to respond to calls during the day, so it may be necessary in the near future to explore the probability of having some paid staff during daytime hours. This county is fortunate to have a well trained and well equipped fire service. Our volunteers are enthusiastic in their desire to provide outstanding service to the citizens of Cleveland County.

Cleveland County Revenues

Tax Administration

This budget proposes no change in the current property tax rate of 57 cents per \$100 of valuation. The tax rates for the county-wide school district and the county fire district will also

remain at 15 cents and 3 cents respectively. The early payment discount for taxpayers who pay during the month of August will remain at the current discount rate of one-half of 1%.

Human Resources

In order to maintain a balanced budget, employee salaries will be frozen at current levels. The budget does not include any pay increases for employees, including cost of living, merit, or standard rate increases.

In lieu of a pay increase, county employees will receive bonus vacation hours based on years of service. The years of service will be determined as of July 1, 2011. The bonus vacation hours may be used like any other vacation time. The hours will be pro-rated for part time employees in permanently budgeted positions.

Years of Service	Bonus Vacation Hours
1-10	24
11-25	32
25+	40

We will continue to offer employees health insurance options with an opportunity to select either a Health Savings Account (HSA) or a traditional PPO. Our health insurance costs continue to remain stable due primarily to the savings of the HSA plan. We are fortunate in that we have been able to maintain our increase in premium costs over the past several years in the single digits. For next year, the premiums paid by the county on behalf of the employees will rise by only 3%.

With the rising utilization of our dental program, this budget includes an increase in our dental premiums. The premiums for individual employees will increase by \$1.00 per month, but will continue to be paid by the county. Dependent coverage, paid by employees, will also experience a small increase. The employee plus one dependent option will increase by \$1.00 per pay period and employee plus family coverage will increase by \$1.50 per pay period.

The Wellness Program is a great benefit for employees that we began promoting several years ago. Employees are encouraged to make healthy choices which have a positive effect on their individual health as well as the overall stability of our health plan. In conjunction with our health plan, we have continued to promote our employee wellness clinic and pharmacy program as affordable options. The budget includes the addition of a Physician Extender II (50%) and a Public Health Nurse II (50%) to our wellness clinic. Both of these positions are funded by our Wellness Program.

Due to the current economic conditions and the failure to reach targeted investment earnings, the North Carolina Local Government Employees' Retirement System Board of Trustees approved an increase in the employer contribution rate to 7.00% of payroll, which is a 0.50 percentage point increase. The new rate will be effective July 1, 2011. This is the second increase in the past two years.

Veterans Services

Last year, the Veterans Services office was redesigned and moved to a new location on the ground floor of the county administrative building. Our county veterans have commented that they have enjoyed the privacy of the new space. The numbers of veterans returning from active duty in the Middle East has risen over the past several years. The county staff has been doing an outstanding job in providing exceptional service to our local veterans.

Public Schools

The current expenditures for the Cleveland County School System will remain the same as in the previous year. The county allocation in the budget totals \$23,583,213 with the overall funding equating to over \$1,666 per pupil. The increase in per pupil funding is due primarily to a projected decrease in the number of students. Capital outlay will be reduced by \$250,000 and restricted capital projects will be funded at a total of \$1.2 million.

CLEVELAND COUNTY SCHOOL FUNDING WORKSHEET (ACCRUAL BASIS) April 29, 2011

Annual Percent Change	0.13%	0.57%	-0.11%	3.33%	2.25%	3.05%

The new Shelby Middle School will be completed this summer and is scheduled to open for the new school year in August. Once completed, the old Shelby Middle School will be renovated to house the new consolidated school administrative offices and the student alternative programs.

Community College

The budget includes an allocation of \$1,415,129 in current expenditures for the Cleveland Community College. Funding for capital projects will remain unchanged. The construction of the LeGrand Center, located on the campus at the Community College, is progressing well and is anticipated to be completed in the late spring of 2012.

Capital Projects

This budget addresses several capital projects. These projects are summarized as follows:

• Farmers' Market – Working on a joint project with the City of Shelby to create a new farmers' market located in Uptown Shelby.

- Conference Center/Early College High School/Continuing Education facility-Collaborating with the Cleveland County Schools and the Cleveland Community College to construct a multi-purpose facility.
- Detention Center Annex Expansion Construction of the 152 bed expansion project is estimated to be completed in July 2011.
- Foothills Commerce Center Working on a joint venture with the City of Shelby to develop an industrial park west of Shelby. A 100,000 square foot shell building in the park is under construction and is expected to be completed in August 2011.
- Historic Courthouse Renovations Assisting with the renovation of the historic courthouse. The Earl Scruggs Center is scheduled to be completed in the spring of next year.
- Shelby Middle School Working with the school board to build a new Shelby Middle School to open in the fall of 2011. Plans are to also renovate the current Shelby Middle School and consolidate the school administration and alternative programs.
- American Legion Baseball Facilities Assisting with the renovation of the Shelby High School Baseball Stadium in preparation for the American Legion World Series in August.

Economic Development/Tourism

The budget appropriates \$242,000 to the Cleveland County Economic Development Partnership to be used in the recruitment of new businesses, as well as existing industry expansions. We continue to receive calls and visits from potential businesses considering locating to our area. We will also continue to explore new and innovative ways to be more marketable to current and future businesses.

The county has continued to place an emphasis on local travel and tourism within our community. This budget is allocating \$95,000 for travel and tourism with a majority of funding coming from the local occupancy tax. Work continues on the Shelby High School baseball stadium which will host the American Legion World Series baseball tournament. As a result of the hard work of many dedicated volunteers, our community will see a tremendous economic benefit and national recognition. Along with the support of the county, private donors, and a \$1.5 million grant from the Economic Development Administration, Destination Cleveland County has begun renovations of the former historic county courthouse. The new Scruggs Center, once complete, along with the Don Gibson Theatre, will have a significant impact on the numbers of visitors to our county.

Conclusion

The county unemployment rate is currently 11.7%. Retail sales have begun to stabilize and local housing starts are improving but are not near the levels of several years ago. With economic uncertainty, this budget focuses on maintaining overall public expenditures at current levels. We are exploring all avenues to manage costs while providing exceptional quality services. With the County Commissioners' direction and leadership, we will continue to operate with no reduction in county funded services and no increase in property taxes in the near future.

We look forward to continuing our focus on the recruitment of new businesses and the retention of our current businesses. Creating and retaining jobs for our citizens will help stabilize our local economy as well as assist with maintaining a stable tax rate. We are currently working on several economic development projects which if successful will have a positive impact on our overall economy and unemployment rate.

I would like to thank Chris Crepps, Finance Director and his staff for their outstanding work in assisting with the preparation of this budget. Our county departments and staff will continue to work diligently to contain costs and manage our resources wisely while providing exceptional public services.

Respectfully submitted,

David C. Dear

David C. Dear County Manager

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011 I: PREFACE AND INTRODUCTION C. Organizational Chart

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011 I: PREFACE AND INTRODUCTION D. Introduction from the County Finance Director

October 22, 2011

To the Citizens, Cleveland County Board of Commissioners, and other interested readers:

County management hereby respectfully submits, and is responsible for the contents of, the *Annual Financial and Compliance Report For the Year Ended June 30*, 2011 to the Cleveland County Board of Commissioners, residents of Cleveland County, and other readers. With this *Annual Financial and Compliance Report* of Cleveland County, North Carolina, management portrays the basic financial condition, and recent changes thereto, of the County government.

This introduction serves to present a brief description of the four sections that make up this annual report, to note that County management has sole responsibility for this year-end report, and to introduce interested readers to Cleveland County. "Section I. Preface and Introduction" begins with a message from the County Manager, includes organizational information, and ends with this introduction letter. Section II includes the bulk of the financial statements, including the "Notes to Financial Statements" and "Required Supplementary Information." For a narrative overview and analysis of the County's fiscal performance, see the "Management's Discussion and Analysis" in Section II. Section III displays statistical and trend information concerning major items such as property taxes, debts, revenues and expenditures, demographics, and economics. Finally, the County's status of compliance with grant-related federal and state rules and regulations is shown in Section IV. More detailed information on various financial matters may be found throughout this document.

County's Responsibilities

This report fulfills the County's responsibility to annually publish complete, accurate, and reliable financial statements and related schedules. Although an independent auditing firm of licensed certified public accountants is hired each year to conduct a financial and compliance audit, County management is responsible for the fair presentation in the financial statements of financial position, results of operations, and cash flows in conformity with the accounting principles that are generally accepted in the United States of America. The County is also responsible for compliance with the laws, regulations, and provisions of contracts and grant agreements applicable to the County, including tax or debt limits, debt contracts, and federal and state programs. In addition, the County has monitored sub-recipients to determine that they have expended pass-through assistance in accordance with applicable laws and regulations and have met the requirements of the federal Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

Further, the County is responsible for adopting sound accounting policies, establishing and maintaining effective internal controls, and preventing and detecting fraud. Therefore,

County management has established a comprehensive internal control framework that is designed both 1) to help protect the County's assets from loss, theft, or misuse and 2) to compile sufficient reliable information presented in this report as the County's official financial statements and related schedules such that the presented information complies with U. S. generally accepted accounting principles. While County management conducts its continuing assessment, the County asserts reasonable assurance, not absolute assurance, that its internal control over both 1) the effectiveness and efficiency of operations and 2) financial reporting, which includes safeguarding of assets and compliance with applicable laws and regulations, as of June 30, 2011 was operating effectively.

The County Finance & Purchasing Department is tasked with investigating possible or alleged incidents of fraud, waste, and abuse. We have no knowledge of any allegations of fraud or suspected fraud affecting the entity. If you notice any County employee acting unprofessionally during working hours or using County equipment or other County property for unofficial purposes, please report the event to either 1) the County Finance & Purchasing Department at 704-484-4807, 2) the County Manager's Office at 704-484-4800, and/or 3) any one or more of your County Commissioners.

Assertions

The financial statements herein are fairly presented in conformity with U. S. generally accepted accounting principles and include all properly classified funds and other financial information of the primary government required by U. S. generally accepted accounting principles to be included in the financial reporting entity. The following statements are true:

- 1) There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
- 2) There are no material transactions that have not been properly recorded in the accounting records underlying the financial statements or the schedule of expenditures of federal and State awards.
- 3) The County has no plans or intentions that may materially affect the carrying value or classification of assets, liabilities, or fund equity.
- 4) There are no unreported violations or possible violations of budget ordinances, laws and regulations (including those pertaining to adopting, approving, and amending budgets), provisions of contracts and grant agreements, tax or debt limits, and any related debt covenants whose effects should be considered for disclosure in the financial statements, or as a basis for recording a loss contingency, or for reporting on noncompliance.
- 5) There are no unasserted claims or assessments that are probable of assertion and no other liabilities or gain or loss contingencies that must be accrued and that must be disclosed in accordance with <u>Financial Accounting Standards Board (FASB) Statement No. 5, Accounting for Contingencies.</u>
- 6) There are no reservations or designation of fund equity that were not properly authorized and approved.
- 7) All funds and activities are properly classified in the financial statements.

Description of Cleveland County

Thank you for your interest in Cleveland County, North Carolina. Established by the General Assembly of North Carolina, Cleveland County has a land area of approximately 465 square miles. In 1841, Tryon County was separated into Cleveland, Lincoln, and Rutherford counties. Cleveland County was originally named after Colonel Benjamin Cleaveland, a partisan leader of the western frontier and one of the heroes in the Battle of Kings Mountain during the Revolutionary War. In 1887, the original spelling of Cleaveland was changed to Cleveland.

The City of Shelby, chartered in 1884, is the County seat and the most populous municipality in the County. Shelby was named after Colonel Isaac Shelby, another war hero from the Battle of Kings Mountain. To travel to Shelby, one must venture about 45 miles west from the City of Charlotte or 75 miles east from the City of Asheville, both in North Carolina, or 50 miles north of the City of Spartanburg, South Carolina. In short, Cleveland County is strategically located between two of the largest metropolitan areas of the Carolinas. In fact, Charlotte Douglas International Airport is the ninth largest hub in the nation. And, the region offers major league sports, breathtaking mountains, and nearby sunny beaches.

The City of Kings Mountain is the second largest city in the County. About 90% of the City of Kings Mountain is located in Cleveland County and the remaining amount in Gaston County. Kings Mountain is situated near the intersection of I-85 and US 74. The city is located roughly midway between Shelby and Gastonia, the two seats of their respective counties.

Cleveland County has a commission-manager form of government, meaning that the County Board of Commissioners governs the County, is responsible for the County's policies and procedures, and appoints a County Manager to direct the routine administration of the County. The Board of Commissioners consists of five members elected at large whose terms of office are staggered to keep experienced persons on the Board at all times.

The County levies a property tax on both real and personal property located within its border. Through the annual budget ordinance, the property tax rate is set and provides resources for the County to provide a range of governmental services, including law enforcement, fire protection, medical-related emergency transportation, public health and social services, solid waste collection, and others. The County also contributes to local public educational entities.

The County has established a unified county-wide school district that is operated and administered by a separate non-partisan nine-member board of education whose members are elected by the citizens. Cleveland County Schools has about 16,000 students. The local board of education appoints a superintendent to direct the day-to-day management of the school system.

Further, high school sports in the County have a rich championship history. And, in recent years, three of the four high schools have had teams competing in state championship title matches in football, basketball, soccer, and softball.

Also, a number of post-secondary institutions exist in and near the County. Cleveland Community College offers an associate degree program, diplomas and certificates, and a continuing education program. The Town of Boiling Springs hosts Gardner-Webb University, a four-year liberal arts college. Ambassador Baptist College, in the Town of Lattimore, trains men and women for full-time Christian service. Catawba Valley Community College in the City of Hickory, Central Piedmont Community College in the City of Charlotte, Gaston College in the City of Dallas, and Isothermal Community College in the City of Spindale also serve Cleveland County residents from the state's Community College System. Other nearby post-secondary institutions include Belmont Abbey, Converse College, Davidson College, Furman University, Johnson C. Smith University, Lenoir-Rhyne College, Limestone College, Queens College, the University of North Carolina at Charlotte, the University of South Carolina at Spartanburg, Winthrop University, and Wofford College.

The local economy is diverse and without dependence on any one industry. Truck cabs, transmissions, armored vehicle plating, aircraft parts, ceramic capacitor material, electric motors, and production equipment are just a few of the items fabricated in Cleveland County. Cleveland County is home to numerous ISO 9000 certified companies and over one-fifth of the work force is involved in manufacturing. And, the County offers a unique combination of assets to existing and new industry, such as an abundant and educated workforce, a highly diversified industrial base, a positive work ethic, cooperative educational programs from Cleveland Community College located in Shelby, organically grown food from Hallelujah Acres, ethanol (an alternative fuel for vehicles), and easy access to various types of transportation routes. The County has a broad diversity of manufacturing firms, of which more than 20 firms employ 100 or more persons.

Nestled in the rolling piedmont of the southwestern portion of North Carolina and bordering South Carolina, Cleveland County is situated in the foothills of the Blue Ridge Mountains. The County has easy access to virtually all of the mid-Southeast's major markets. Both Charlotte-Douglas International Airport and Greenville-Spartanburg International Airport are within an hour's drive. Major rail lines also track through the County. And, the ports of Wilmington, NC, Charleston, SC, and Savannah, GA are easily accessible via major interstate highways. The County is about 200 miles from Myrtle Beach, South Carolina, 200 miles from Atlanta, Georgia, 410 miles from Washington, D. C., and 650 miles from New York, New York.

The County has many attractions, such as the Shelby City Park train and carrousel. The County also boasts the largest county fair in the state at the Cleveland County Fairgrounds. The Cleveland County Fair is held for more than a week and usually begins near the end of September. Throughout Cleveland County, you will find caring and highly trained physicians and nurses eager to provide quality healthcare and share their knowledge. Plus, golfers enjoy the variety of quality golf courses in the County. In addition, the County partners with non-profit agencies that oversee operations at the Broad River Greenway and the Kings Mountain Trails Gateway. Activities such as horseback riding, backpacking, and canoeing are found at these facilities that boast over 2,000 acres. You will also find log cabins, picturesque scenes, and picnic areas at these facilities. Plus, the County is central to recreational facilities located

in nearby national parks (i.e. Kings Mountain) and state parks (i.e. South Mountain and Crowders Mountain in NC and Kings Mountain in SC).

The locals are proud of the area's history and its natural beauty. Area attractions include:

Long-Term Financial Planning

To improve the County's financial position, the County annually evaluates and plans long-term operating and capital needs for all provided services and programs. The formal plan is

titled the "Capital Improvement Program" (CIP). The plan addresses both 1) the projected costs of additional operating and capital needs and 2) the strategy to provide financial resources from which to pay the costs in the foreseeable future. Major items in the plan include improving public school facilities and constructing a multi-purpose community complex on the campus of Cleveland Community College. The items included in the first year of the plan are reflected in the County's operating budget for the year ending June 30, 2012.

In other efforts to maintain or improve the County's financial status, County management encourages the pursuit of the following goals:

- ✓ re-evaluate the CIP each year
- ✓ maintain at least 18% of annual operating expenditures in cash reserves
- ✓ avoid using one-time revenue resources for recurring expenditures
- ✓ aggressively seek financial support, such as federal or state grant monies, to attain a sufficient level of resources to finance capital projects
- ✓ pay for small capital projects without borrowing funds and borrow funds, as needed, for larger and more expensive capital projects

I express deep appreciation to the Board of Commissioners, County Manager, and other administrative staff for their interest and support in planning and conducting the financial affairs of the County.

Summary

This Annual Financial and Compliance Report was compiled by staff of the County Finance & Purchasing Department, in cooperation with the County Manager and various staff of certain other departments, primarily Human Resources, Social Services, Property Tax Administration, and Information Technology. Martin Starnes & Associates, CPAs, P.A., an independent auditing firm of licensed certified public accountants, printed this report. The contributions of all participants are invaluable.

With 15 incorporated municipalities of varying sizes and many smaller communities in the County, you will find there are many great places to live and visit in Cleveland County. Most importantly, you will find that the people of Cleveland County are welcoming and friendly to neighbors and newcomers. And, the caring workers of Cleveland County businesses consistently out-give other communities to United Way and other community organizations. Cleveland County is a great place to live, work, play, and just enjoy life. You are always welcome in Cleveland County.

Respectfully submitted,

C. D. Crepps

CD Crepps

County Finance Director

INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners Cleveland County, North Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Cleveland County, North Carolina, as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Cleveland County's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Cleveland County, North Carolina, as of June 30, 2011, and the respective changes in financial position and cash flows, where appropriate thereof, and the respective budgetary comparison for the General Fund, School Capital Reserve Fund, and the County Capital Reserve Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated October 26, 2011, on our consideration of Cleveland County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Law Enforcement Officers' Special Separation Allowance, and the Other Post-Employment Benefits' Schedules of Funding Progress and Employer Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide assurance.

Our audit was performed for the purpose of forming opinions on the basic financial statements that collectively comprise the basic financial statements of Cleveland County, North Carolina, as a whole. The introductory section, combining and individual fund financial statements, budget and actual schedules, supplemental ad valorem tax schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal and State Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the State Single Audit Implementation Act, and is also not a required part of the basic financial statements. The combining and individual fund financial statements, budget and actual schedules, supplemental ad valorem tax schedules and the Schedule of Expenditures of Federal and State Awards are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain other procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement, s or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subject to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

....

Cleveland County, North Carolina Annual Financial and Compliance Report For the Fiscal Year Ended June 30, 2011 II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

B. Management's Discussion and Analysis

Via this subsection entitled "Management's Discussion and Analysis", management of Cleveland County, North Carolina, offer readers of this *Annual Financial and Compliance Report for the Fiscal Year Ended June 30, 2011* a narrative overview and analysis of the County's fiscal performance. This subsection follows "Subsection A: Report from the Independent Auditor" and serves as an introduction to "Section II: Financial Statements and Supplementary Information." To gain valuable insight, please read the following discussion in conjunction with the financial statements and supplementary information furnished in this section.

SIGNIFICANT FINANCIAL HIGHLIGHTS

- On a government-wide basis, assets exceeded liabilities at the close of the fiscal year by \$138,447,849. This amount is also referred to as total net assets.
- On a government-wide basis, total net assets decreased by \$2,790,439 from last year, primarily due to continued reduction in investment earnings, large increase in interest expense on recent borrowings, and large increase in liability for closure and post-closure care costs at the County's landfill operations.
- The ending fund balances of all governmental funds combined equals \$46,640,770, a decrease of \$12,459,143 from prior year. This decrease is primarily due to spending of debt proceeds included in revenue of prior years.
- At the end of the fiscal year, fund balance available for appropriation in the General Fund was \$13,583,362, or 15.0% of total General Fund expenditures for the fiscal year.
- The County added \$29,186,817 (24.3%) to its total capital assets during the fiscal year, to achieve an ending balance of \$149,390,168. A few building projects are underway.
- Total long-term liabilities increased by \$18,151,154 (38.3%) to \$65,533,868 during the fiscal year due to 1) issuing \$17,582,950 in new debt and 2) increases in estimated obligations for pensions and other postemployment benefits, all of which were partially offset by making scheduled principal payments.

DESCRIPTION OF SECTION II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

This narrative, "Management's Discussion and Analysis", serves as an introduction to this section. Section II, which is the primary focus of the annual report, can be broken down into five subsections as follows:

- A. Report from the Independent Auditor
- B. Management's Discussion and Analysis,
- C. Basic Financial Statements,
- D. Required Supplementary Information, and
- E. Other Supplementary Information.

"Subsection C: Basic Financial Statements" can be further broken down into three primary parts:

- 1. Government-Wide Financial Statements,
- 2. Fund Financial Statements, and
- 3. Notes to Financial Statements.

The supplementary information that follows the Basic Financial Statements provides more details to enhance our understanding of the financial condition and recent financial performance of Cleveland County, North Carolina. "Subsection D: Required Supplementary Information" has these six components:

- 1. Law Enforcement Officers' Special Separation Allowance Financial Schedules,
- 2. Other Post-Employment Benefits-Retirees' Healthcare Coverage Financial Schedules,
- 3. Major Governmental Funds Financial Statements,
- 4. Non-Major Governmental Funds Financial Statements,
- 5. Major Enterprise Fund Financial Schedule, and
- 6. Fiduciary Funds Financial Statement

Basic Financial Statements (BFS) and Required Supplementary Information (RSI)

RSI - Management's Discussion and Analysis (MD&A)

BFS - Government-Wide Financial Statements (GWFS)

BFS - Fund Financial Statements (FFS)

Governmental Fund Financial Statements

Budgetary Comparison Statements

Proprietary Fund Financial Statements

Fiduciary Fund Financial Statements

BFS - Notes to Financial Statements (Notes)

RSI - Other Supplementary Schedules

Budget to Actual Comparison Schedules

Other Supplementary Information

Basic Financial Statements

Through the Government-Wide Financial Statements and the Fund Financial Statements, the Basic Financial Statements present two different views of the County. The Government-Wide Financial Statements provide both short-term and long-term information about the County's overall financial status. The Fund Financial Statements, however, focus exclusively on short-term information and provide more detail on the activities of the individual components of the County's operations. Following the Fund Financial Statements, the Notes to Financial Statements explain and add insight to the data contained in the Government-Wide Financial Statements and Fund Financial Statements.

Government-Wide Financial Statements

The Government-Wide Financial Statements comprise governmental activities and business-type activities. Governmental activities, which are financed primarily through property taxes, local sales taxes, and intergovernmental revenues, include the County's basic services such as education funding, emergency services, law enforcement provision, public health, and social services. Business-type activities, which are financed through charges to customers, include only the County's solid waste collection and disposal services. This segregation of activities provides a summarized analysis of the cost of various governmental services and simplifies comparisons to other local government entities.

Government-Wide Financial Statements report the amount of net assets of the County at the end of the fiscal year and how the net assets have changed over the fiscal year. In both the Government-Wide Statement of Net Assets (see Exhibit II.C.1.a) and the Government-Wide Statement of Activities (see Exhibit II.C.1.b), the County has applied accounting methods similar to those used by for-profit entities. For example, certain revenues and expenses are reported although related cash flows will occur in future periods (see Exhibit II.C.2.b.i). By using such methods, these two government-wide reports provide us with a business-like overview of the County's finances and both short-term and long-term information about the County's financial status as a whole.

Net assets, computed similar to net worth, is the difference between the County's total assets (or possessions) and total liabilities (or debts). Measuring net assets is one way to assess the County's financial condition. Through the for-profit perspective, changes in the net assets from year to year help one determine whether the County's financial status is improving or deteriorating. Other additional financial and non-financial factors will also help one assess the overall financial health of the County.

Fund Financial Statements

Whereas, the Government-Wide Financial Statements comprise the consolidation of the County's governmental activities and business-type activities, the more familiar Fund Financial Statements provide much more detailed data about the County's individual funds. The Fund Financial Statements have four components:

- 1. Governmental Fund Financial Statements (Exhibits II.C.2.a, II.C.2.a.i, II.C.2.b, and II.C.2.b.i,),
- 2. Budgetary Comparison Statements (Exhibits II.C.2.c, II.C.2.d, and II.C.2.e),
- 3. Proprietary Fund Financial Statements (Exhibits II.C.2.f, II.C.2.g, and II.C.2.h), and
- 4. Fiduciary Fund Financial Statements (Exhibit II.C.2.i).

Like all other governmental entities in North Carolina, Cleveland County uses the fund concept to ensure and reflect compliance with finance-related legal requirements. Such requirements typically are derived from the North Carolina General Statutes, the Local Government Commission of North Carolina, the County's budget ordinance, or other parties interested in the County's finances. Also, Cleveland County uses fund accounting to control resources that are restricted in purpose and/or time. A fund is a grouping of assets and related debts that are used to maintain control over resources that have been segregated for specific activities or objectives. For an example, review the balance sheet of one or more funds in this report. (Find the larger individual funds, labeled as major funds, within the "Fund Financial Statements" part and the non-major funds within "Subsection D: Required Supplementary Information.")

Governmental Fund Financial Statements. Governmental funds are used to account for the same functions reported as governmental activities in the Government-Wide Financial Statements. The majority of the County's basic services are accounted for in governmental funds. Governmental funds are reported using an accounting method called "modified accrual basis of accounting". This method focuses on current financial resources. Therefore, governmental funds focus on what resources are left at year-end that will be available for spending in the next year. Accordingly, these funds measure the current financial position and changes in the current financial position. As a result, the Governmental Fund Financial Statements give readers a detailed short-term view that helps to determine whether working capital is sufficient to finance the County's programs. To aid the reader in gaining a long-term perspective, the relationship between governmental funds and governmental activities (reported in the Government-Wide Statement of Net Assets and the Government-Wide Statement of Activities) is described in a reconciliation that is a part of the Governmental Fund Financial Statements.

Budgetary Comparison Statements – As required by North Carolina General Statutes Chapter 159, Cleveland County adopts an annual balanced budget ordinance, except where a project ordinance has been adopted, for each governmental fund. The process by which the budget ordinance becomes reality incorporates input from citizens, the Board of County Commissioners, and County management as to which services to provide and what resources will be used to fund the services provided. Cleveland County's budget and budgetary comparison statements are presented on the modified accrual basis of accounting. The budgetary comparison statements, provided for each major governmental fund for which an annual balanced budget ordinance is adopted, demonstrates by fund whether the County complied with the budget ordinance and how well the County performed in providing the services as planned when the budget was adopted. Each fund shown has four columns:

- 1. the original budget as adopted by the Board;
- 2. the final budget as amended by the Board;
- 3. the actual resources, charges to appropriations, and ending balances; and
- 4. the difference or variance between the final budget and the actual resources and charges.

Proprietary Fund Financial Statements. Cleveland County uses one type of proprietary fund called the Enterprise Fund. The Fund Financial Statements of the Enterprise Fund are used to report more details of the same function, solid waste collection and disposal operations, that are presented as business-type activities in the Government-Wide Financial Statements. Since the activities accounted for in the Enterprise Fund are similar to for-profit operations, the Enterprise Fund use the full accrual basis of accounting rather than the modified accrual basis of accounting that is used by governmental funds. Therefore, enterprise funds and other types of proprietary funds provide both long-term and short-term financial information similar to that found in the Government-Wide Financial Statements.

Fiduciary Fund Financial Statements – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Cleveland County has numerous fiduciary funds, one of which is classified as a trust fund, and the remaining fiduciary funds are classified as agency funds. Look for the Statement of Fiduciary Net Assets. Additional information on fiduciary funds can be found in "Subsection D: Required Supplementary Information". Since fiduciary resources cannot be used to finance the County's operations, fiduciary activities are not included in the Government-Wide Financial Statements.

Notes to Financial Statements

The notes provide a summary of significant accounting policies and additional details that are essential to a full understanding of the data provided in the Government-Wide Financial Statements and the Fund Financial Statements. For example, certain schedules provide details concerning capital assets and other schedules provide various details on long-term obligations. Other details and schedules regarding various items are also found.

Required Supplementary Information and Other Supplementary Information

These two subsections include certain information needed to discern Cleveland County's current financial situation and its financial progress over recent years. The required supplementary information concerns, first, the County's obligation to provide post-employment benefits and, second, more detailed results for each individual fund, both major and non-major funds. Additional supplementary schedules concerning cash and investments, transfers between funds, and property taxes are also displayed to help reasonably estimate future progress.

GOVERNMENT-WIDE FINANCIAL HIGHLIGHTS

With the changes in the financial statement reporting model mandated by the Government Accounting Standards Board (GASB), Cleveland County was required to add two Government-Wide Financial Statements and implement other changes for the fiscal year ended June 30, 2003. The two net statements focus on net assets and the changes in net assets. As noted earlier, net assets and the changes therein may serve as useful indicators of a government's financial condition. The tables included herein contain data that allow opportunities for comparative analysis of the two most recent fiscal years. See Table 1 below. Additional comparisons can be found in Section III: Statistical and Trend Information.

Net Assets and Changes in Net Assets

In the fiscal year ended June 30, 2011, net assets decreased by \$2,790,439 to \$138,447,849. This decrease is primarily due to continued reduction in investment earnings, large increase in interest expense, and large increase in liability for closure and post-closure care costs at the County's landfill operations.

Net assets have three components, namely 1) unrestricted net assets, 2) restricted net assets, and 3) invested in capital assets, net of related debt. The figure given as the amount "invested in capital assets, net of related debt" reflects the County's costs of acquiring capital assets (e.g. land, buildings, equipment, and vehicles) less accumulated depreciation that is annually recognized as expenditures over the life of depreciable assets and any related debt still outstanding that was issued to acquire those items. Although the investment in capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources since the capital assets cannot be used to liquidate these liabilities. Since the County uses capital assets to provide services to citizens, the assets are not available for future spending.

Restricted net assets represent the portion of Cleveland County's resources that are subject to external restrictions on how they may be used. The remaining balance of net assets is unrestricted and may be used to meet the government's ongoing obligations to citizens, merchants, and creditors.

Total expenses	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%

Each year-end balance of unrestricted net assets has been reduced by the outstanding principal on debt used to finance construction of school buildings before 2010. Since school buildings were titled to the Cleveland County Board of Education, these assets were not recorded as the County's capital assets and related loans were not included in the calculation of 'invested in capital assets, net of related debt". As the principal of such debt increases or decreases, unrestricted net assets decreases or increases, respectively. Beginning with debt issued in 2010 for school buildings, the County will hold title until the loan is paid. Due to this arrangement, the outstanding principal on this and future debts used to finance construction of school buildings will be included in the calculation of "invested in capital assets, net of related debt." From the period before 2010, very little outstanding debt related to school buildings remains.

Of total revenues, about <u>43.86%</u> stems from property and other taxes, <u>28.88%</u> from program grants and contributions, and <u>26.87</u>% from charges for services. Of total expenses, about <u>33.65%</u> is spent toward human service programs, <u>24.23%</u> toward education programs, and <u>21.33%</u> on public safety programs. To summarize, the County's total revenues are about <u>\$106</u> million and total expenses are about <u>\$108.8</u> for the year ended June 30, 2011, removing about <u>\$2.8</u> million to the total net assets of the County. See Table 2 and Table 3 above.

Other indicators of the County's financial condition include the net assets ratio, debt-to-assets ratio, capital assets condition ratio, total margin ratio, percentage change in net assets, debt service ratio, and quick ratio. Calculations of these indicators for the current report are described below. Also, see Table 4 below for 7-year trend information.

- 1) total margin ratio = (total resource inflow) divided by (total resource outflow)
- total resource inflow = \$105,970,795, which is total general revenues and transfers (\$46,914,199) plus program revenues (\$28,486,034 + \$27,193,223 + \$3,377,339) of the County (from Exhibit II.C.1.b)
- total resource outflow = \$108,761,234, which is total expenses of the County (from Exhibit II.C.1.b)
- total margin ratio = \$105,970,795 / \$108,761,234 = 0.974
- 2) percentage (%) change in net assets = (change in net assets) divided by (beginning net assets)
- change in net assets = -\$2,790,439 (from Exhibit II.C.1.b)
- beginning net assets = \$141,238,288 (from Exhibit II.C.1.b)
- percentage (%) change in net assets = -\$2,790,439 / \$141,238,288 = -2.0%
- 3) debt service ratio = (principal payments plus interest payments) divided by (total resource outflow plus principal payments)
- principal payments = \$63,273 + \$2,783,775 = \$2,847,048 (from Exhibits II.D.3.a and II.D.4.h)
- interest payments = \$6,585 + \$1,704,965 = \$1,711,550 (from Exhibits II.D.3.a and II.D.4.h)
- debt service ratio = (\$2,847,048 + \$1,711,550) / (\$108,761,234 + \$2,847,048) = 0.041
- 4) quick ratio =(cash and cash equivalents) divided by (current liabilities)
- cash and cash equivalents = \$34,078,328 (from Exhibit II.C.1.a)
- current liabilities = \$8,608,161 + \$2,850,574 + \$798,601 + \$224,912 = \$12,482,248 (from Exhibit II.C.1.a)
- quick ratio = \$34,078,328 / \$12,482,248 = 2.730
- 5) net assets ratio = (unrestricted net assets) divided by (total liabilities)
- unrestricted net assets = \$1,914,979 (from Exhibit II.C.1.a)
- total liabilities = \$78,016,116 (from Exhibit II.C.1.a)
- net assets ratio = \$1,914,979 / \$78,016,116 = (0.025)
- 6) debt-to-assets ratio = (outstanding long-term liabilities) divided by (total assets)
- outstanding long-term liabilities = \$65,533,868 (from Exhibit II.C.1.a)
- total assets = \$216,463,965 (from Exhibit II.C.1.a)
- debt-to-assets ratio = \$65,533,868 / \$216,463,965 = 0.303
- 7) capital assets condition ratio = (1.000) less ((accumulated depreciation) divided by (capital assets being depreciated))
- accumulated depreciation = \$46,772,943 + \$7,331,073 = \$54,104,016 (from Note b.A.5 on Capital Assets)
- capital assets being depreciated = \$130,077,094 + \$10,602,671 = \$140,679,765 (from Note b.A.5 on Capital Assets)
- capital assets condition ratio = 1.000 (\$54,104,016 / \$140,679,765) = 0.615

Table 4. 7-Year Trend of 7 Important Government-Wide Financial Indicators

Indicator Name / Result	2011	2010	2009	2008	2007	2006	2005
total margin ratio	0.974	1.013	0.985	1.243	1.110	1.180	1.085

capital assets condition ratio	0.615	0.642	0.651	0.676	0.637	0.646	0.624

Governmental Activities

Governmental activities decreased the County's net assets by \$1,109,721, thereby, contributing to the overall decrease in total net assets. See both Table 2 and Table 3 above. This decrease in net assets is primarily due to total expenditures exceeding total revenues in many governmental funds.

Business-Type Activities

Business-type activities decreased the County's net assets by \$1,680,718, thereby, contributing to the overall decrease in total net assets. See both Table 2 and Table 3 above. Correcting the amount of reported liability for future closure and post-closure care activities, the County increased the reported liability for closure and post-closure care costs by \$2,026,980. This change in reported liability led to the decrease in net assets.

Due to the nature of the landfill business, we intend to return to building cash reserves following the closing of the older landfill site and opening of the newer landfill site. Generally, increases in assets beget increases in net assets. And, a large amount of cash reserves is needed to fund the construction of additional landfill sites. The older landfill site remained open until January 2010. The County's budget for the year beginning July 1, 2010 included an estimated amount for the closure activities of the older landfill site and that project was incomplete at June 30, 2011.

FUND HIGHLIGHTS

As noted earlier, Cleveland County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Funds with either large balances at year-end or a large amount of activity during the year are classified as "major" funds and receive special attention throughout this *Annual Financial and Compliance Report For the Fiscal Year Ended June 30*, 2011.

Governmental Funds. The focus of Cleveland County's governmental funds is to provide information on nearterm inflows, outflows, and balances of usable resources. Such information is useful in assessing Cleveland County's financing requirements. Specifically, fund balance available for appropriation can be a useful measure of a government's net resources available for spending at the end of the fiscal year. Across all governmental funds, the County has a fund balance available for appropriation of about \$15.27 million. Also, as a measure of a fund's liquidity, it may be useful to compare both fund balance available for appropriation and total fund balance to total fund expenditures. For all governmental funds, fund balance available for appropriation amounts to 12.0% and total fund balance amounts to 36.5% of total expenditures. More financial indicators are shown in Table 5 below, preceded by a description of each indicator.

Further, restrictions, commitments, and assignments of fund balance for special purposes have not had a significant affect on the availability of fund resources for future use. Restricted, committed, and assigned resources are typically restricted to a specific use and not a specific time period. However, some restricted resources do not promise a continuing revenue stream to support ongoing operations since the restricted resources were provided solely to complete a specific project. Such resources may be eventually depleted.

On June 30, 2011, the County reported \$46,640,770 as the combined fund balance of all governmental funds. The total decrease in the combined fund balance of all governmental funds of \$12,459,143 may be attributed to various causes. Primarily, the reason for this decrease results from 1) spending loan proceeds that were unspent last year partially offset by the unspent proceeds of a \$17,582,950 installment purchase during the year, 2) larger than anticipated decreases in sales taxes and other revenues due to economic factors, and 3) large increase in interest paid for borrowings.

The General Fund is the chief operating fund of the County and a major fund. At the end of the current fiscal year, fund balance available for appropriation of the General Fund was \$13,583,362, while total fund balance reached \$22,281,639. The total decrease in the fund balance of the General Fund of \$1,300,489 is primarily attributed to large transfers for current and future construction projects to the Capital Projects Fund and larger

than anticipated decreases in sales taxes and other revenues due to national, regional, and local economic factors. Fund balance available for appropriation represents $\underline{15.0\%}$ of total General Fund expenditures, while total fund balance represents $\underline{24.6\%}$ of that same amount, amounts that have deteriorated since prior year.

The County Manager has determined that the County should maintain a level of fund balance available for appropriation of between 18% to 20% of total expenditures in the General Fund. Not only does maintaining such levels assist with cash flow needs, the County is also better able to weather unforeseen circumstances and take full advantage of unanticipated opportunities. The County is taking corrective action to increase this calculated percentage to the approved level.

Due to a number of large ongoing projects, the Capital Projects Fund remains to be a major fund for the year ended June 30, 2011. The County plans to spend accumulated cash to help 1) finance current and future projects and 2) purchase planned assets while continuing to add cash contributions for these purposes.

- 1) operations ratio = ((total revenues) plus (transfers in) less (transfers in to capital projects-type funds)) divided by ((total expenditures) plus (transfers out) less (proceeds from capital leases and installment financing) and less (transfers out from capital projects-type funds))
 - total revenues plus transfers in = \$104,567,640, which is total revenues (\$97,348,255) plus transfers in (\$7,219,385) of the County's governmental funds (from Exhibit II.C.2.b)
 - transfers in to capital projects-type funds = \$1,283,781, which is total transfers in to Capital Projects Fund (from Exhibit II.E.02)
 - total expenditures plus transfers out = \$134,609,733, which is total expenditures (\$127,726,273) plus transfers out (\$6,883,460) of the County's governmental funds (from Exhibit II.C.2.b)
 - proceeds from capital leases and installment financing = \$17,582,950 (from Exhibit II.C.2.b)
 - transfers out from capital projects-type funds = \$3,525,703, which is total transfers out from Capital Projects Fund (from Exhibit II.E.02)
 - operations ratio = (\$104,567,640 \$1,283,781) / (\$134,609,733 \$17,582,950 \$1,283,781) = 0.910
- 2) percentage (%) change in fund balance = ((change in fund balance) less (unspent debt proceeds)) divided by (beginning fund balance)
 - change in fund balance = \$12,459,143 (from Exhibit II.C.2.b)
 - beginning fund balance = \$59,099,913 (from Exhibit II.C.2.b)
 - percentage change in fund balance = \$12,459,143 / \$59,099,913 = 21.0815%
- 3) debt service ratio = ((principal payments) plus (interest payments)) divided by ((total expenditures) plus (transfers out) less (proceeds from capital leases and installment financing) and less (transfers out from capital projects-type funds))
 - principal payments = \$2,847,048 (from Exhibit II.C.2.b)
 - interest payments = \$1,711,550 (from Exhibit II.C.2.b)
 - debt service ratio = (\$2,847,048 + \$1,711,550) / (\$134,609,733 \$17,582,950 \$1,283,781) = 0.040
- 4) quick ratio = (cash and investments) divided by (current liabilities--not including deferred revenues)
 - cash and cash equivalents = \$28,687,969 (from Exhibit II.C.2.a)
 - current liabilities--not including deferred revenues = \$7,329,472 + \$576,942 + \$2,847,894 + \$2,226,697 + \$224,912 = \$13,205,917 (from Exhibit II.C.2.a)
 - quick ratio = \$28,687,969 / \$13,205,917 = 2.172
- 5) available fund balance-to-expenditures ratio = (available fund balance) divided by ((total expenditures) plus (transfers out) less (proceeds from capital leases and installment financing) and less (transfers out from capital projects-type funds))
 - available fund balance = \$15,266,575 (from Exhibit II.C.2.a)
 - available fund balance-to-expenditures ratio = \$15,266,575 / (\$134,609,733 \$17,582,950 \$1,283,781) = 0.135

- 6) debt-to-assessed value ratio = (long-term debt) divided by (total assessed value used for property tax purposes)
 - long-term debt = \$50,534,334 (from detail notes in Exhibit II.C.3.b.B.7.e)
 - total assessed value used for property tax purposes = \$6,676,763,263 (from Exhibit II.E.03)
 - debt-to-assessed value ratio = \$50,534,334 / \$6,676,763,263 = 0.0076
- 7) intergovernmental ratio = (intergovernmental revenues) divided by ((total revenues) plus (transfers in) less (transfers in to capital projects-type funds))
 - intergovernmental revenues = \$24,260,241 (from Exhibit II.C.2.b)
 - intergovernmental ratio = \$24,260,241 / (\$104,567,640 \$1,283,781) = 0.235

Proprietary Funds. Cleveland County's sole proprietary fund, an Enterprise Fund, provides the same type of information found in the government-wide statements, but in more detail. Unrestricted net assets of the Solid Waste Fund at the end of the fiscal year amounted to - \$2,389,745 and total net assets of this fund is \$12,650,002. Factors concerning the finances of this sole Enterprise Fund have already been addressed in the discussion of Cleveland County's business-type activities.

Capital Assets. Cleveland County's capital assets for its governmental and business-type activities as of June 30, 2011 totals \$149,390,168 (net of accumulated depreciation). These assets include construction in progress, equipment and vehicles, buildings, land, improvements to both land and buildings, leasehold improvements, and infrastructure items. Major capital asset transactions during the year include:

- Acquisition of new equipment and vehicles (\$2,505,786 + \$487,371 increase).
- Acquisition of capital assets other than equipment and vehicles through the purchase, major renovation, construction, or received donation of land and buildings (\$31,718,631 increase)

- Increase in accumulated depreciation, including depreciation expense on equipment and vehicles of \$1,878,879 and on capital assets other than equipment and vehicles of \$3,515,510 (\$5,394,389 decrease to reported capital assets).
- Retirement and subsequent disposal of items sold, traded-in, made obsolete by newer equipment, or otherwise properly disposed (\$43,528 decrease for equipment and vehicles; \$83,104 decrease for capital assets other than equipment and vehicles; \$126,632 total decrease)

The County's investments in capital assets increased over <u>24.28%</u> from the previous year. Additional information on the County's capital assets can be found in the Notes to Financial Statements, see Note 1.E. and Note 3.A.

Long-Term Liabilities. As of June 30, 2011, Cleveland County had total indebtedness outstanding of \$50,534,334, all of which is debt backed by the full faith and credit of the County. During the year ended June 30, 2011, the change in total outstanding indebtedness was \$15,830,224 (or 111%). During the year, the County met all normal debt service requirements of (\$4,550,551) and issued new debt of \$17,582,950.

In 2010, when the County last issued debt by financing the construction of school facilities, Standard & Poor's upgraded the County from an A bond rating to A+ and Moody's Investor Services realigned the County from an A1 bond rating to Aa2 based on its review and restructure of bond ratings for all local government entities. As of April 2011, the North Carolina Municipal Council issued a score of 83 out of 100 possible points.

The State of North Carolina limits the amount of general obligation debt that a unit of government can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. After calculating the County's legal debt limit (which is 8% of total assessed value) and subtracting current outstanding long-term debt, the legal debt margin for Cleveland County is \$453,744,179. See Subsection III.C within Section III for more information on the calculation of the legal debt margin and other information concerning long-term debt. Additional information regarding the County's long-term obligations can be found in the Notes to Financial Statements, see Note a.D.8 and Note b.B.7.

BUDGETARY HIGHLIGHTS

During the fiscal year, the County revised the budget on several occasions. Generally, budget amendments fall into one of four categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to continue incomplete projects from the prior fiscal year; 3) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 4) increases in appropriations that become necessary to maintain services. And, the Commissioners have granted the County Manager authority to carryforward unspent donations and other designated proceeds for which budget was approved by the Commissioners in a prior year but some expenditures have not yet occurred. See Table 7 following the discussion below for a summary of budget amendments by fund.

General Fund. Total amendments to the General Fund increased budgeted revenues by \$7,016,038, appropriations of fund balance by \$1,589,278, and incoming transfers from other funds by \$615,000. The primary reasons for these increases were: (1) to carryforward budget related to a) unspent grant awards and other restricted resources (such as donations), b) unpaid obligations (i.e. year-end outstanding encumbrances), c) uncollected and undistributed property taxes for public schools, and d) other incomplete projects, (2) to accept new grants and other new resources for the purchase of various supplies, equipment, and services, or for school projects, (3) to accept new grants for recruiting new industry to locate facilities within Cleveland County, (4) to accept new public assistance grants that helped with residential heating costs and temporary employment, and (5) to accept a new grant on behalf of the regional mental health authority to assist with construction of a detoxification facility.

Capital Projects Fund. Budget amendments to the Capital Projects Fund increased revenues and expenditures by \$53,512,370 for various purposes: (1) to account for requested withdrawal of proceeds from the State lottery for renovations made to several school buildings for various upgrades, (2) to appropriate borrowed and reserve

funds for use in the construction of a new multi-purpose facility at the community college that will include the Early College High School, (3) for continuing projects that were incomplete when the year began (such as the renovation and expansion of the County's Detention Center Annex facility and construction of a new middle school in Shelby) including budget for items already spent to show total budget for the multi-year project on the current year's reports, and (4) to acknowledge the use of grant funds from external sources that will be used to finance the renovation of the historic courthouse in Shelby.

Solid Waste Fund. In the County's sole Enterprise Fund, total amendments to the Solid Waste Fund increased revenues and expenditures by \$601,346 primarily to account for the purchase of adjacent property to perpetuate the landfill operations for many years.

Non-Major Funds. Total amendments to non-major funds include the carryforward budget of incomplete special projects (including budget for items already spent to show total budget for the multi-year project on the current year's reports) and budget for new special projects.

The Community Development Fund is budgeted by project ordinance instead of the annual budget ordinance. The County budgeted \$2,600,000 in the Community Development Fund, which is reported as a Special Revenue Fund. Since this fund is not included in the original adopted budget, all budgeted expenditures (i.e. appropriations) are shown as budget amendments.

Table 7. Schedule of Budget Amendment Amounts by Fund

		Original Adopted Amendments to Final A		inal Amended		
Fund			Budget	Budget	Budget	
General Fund		\$	94,102,632	\$ 9,220,316	\$	103,322,948
Capital Projects Fund			4,558,400	53,512,370		58,070,770
Enterprise Fund			8,980,518	601,346		9,581,864
Non-Major Funds			6,613,942	3,271,214		9,885,156
	Totals	\$	114,255,492	\$ 66,605,246	\$	180,860,738

ECONOMIC HIGHLIGHTS AND OTHER IMPORTANT FACTS

The area's unemployment rate has been higher than the State average for several years. In the past year, many industries have either reduced or relocated their workforce. Many others have closed operations. These actions have a significant impact on the County's revenues and expenditures since many of those formerly employed reduce personal spending and now seek services provided by the County. And, of course, the closure or reduction of activity also results in reduction of equipment and facilities subject to property taxation. In addition, lower personal spending has resulted in lower property taxes on personal vehicles and lower revenues from sales taxes

With the sudden downturn in retail sales that began in late September 2008 and has not recovered locally, sales tax revenues were significantly below original estimates. However, the collection of property taxes remained consistent compared to prior years. The Cleveland County Board of Commissioners lowered the property tax rates in fiscal year 2009 in the County-wide general district, County-wide school district, and County fire district, from a combined 76 cents per \$100 in assessed property value to 75 cents per \$100 in assessed property value, to help offset the increase in assessed property values due to a revaluation of property values. Although the County's current cycle is to conduct property revaluations every four years, the next revaluation has been delayed to the fiscal year beginning July 1, 2014.

The total County budget for fiscal year 2012 decreased by <u>0.47%</u> from the prior year. The biggest factor in this decrease stems from decreases in the Solid Waste Fund offset by increases in the General Fund. Last year, the budget for the Solid Waste Fund included \$3,000,000 for the closure of a landfill cell that stopped accepting waste in January 2010. This year, the General Fund increased by <u>\$2,486,776</u>, or <u>2.69%</u>, for various purposes. For a look

at the County's adopted budget for fiscal year 2012, review Subsection I.A, Message from the County Manager, found at the beginning of Section I.

Governmental Activities. An increase in assessed property values should lead to increased property tax revenues. However, revenues from the local option sales taxes continue to fall below budget. The County budgeted for normal increases in employee compensation, including funding compensation and benefits adjustments, and other planned expenditures. Due to payments on new borrowings, budgeted principal, and interest expenditures increased quite a bit in the Debt Service Fund.

Other governmental funds experienced relatively small increases or decreases in their total budget.

Business-Type Activities. The budget for landfill activities in fiscal year 2012 decreased by <u>40.76%</u> when compared to the prior year. This budget excludes \$3,000,000 that was added in the prior year to close an older landfill cell that stopped accepting waste in January 2010.

In addition, to set aside cash for future obligations related to closure and post-closure care costs, the County has increased its fees collected for landfill activities. The County will continue to monitor its revenues from these fees and adjust the fee structure as needed.

REQUESTS FOR ADDITIONAL FACTS

For those with an interest, the remainder of this annual financial report provides a more detailed overview of the County's finances. For additional information or answers to questions concerning any of the information found in this report, please visit our website (http://www.ccncgov/FinanceD/index.html), contact us by telephone (704-484-4807), submit your request via fax (704-484-4796), or address your request to:

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011 II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

C. Basic Financial Statements (includes Notes to Financial Statements)

	Identifier	Page No.
1. Government-Wide Financial Statements	Part II.C.1	38
2. Fund Financial Statements	Part II.C.2	42
3. Notes to Financial Statements	Part II.C.3	52

The Basic Financial Statements provide a dual perspective summary overview of the financial position and operating results of the government as a whole ("Government-Wide Financial Statements") and of all funds ("Fund Financial Statements"). They also serve as a condensed introduction to the more detailed statements and schedules that follow. And, more detailed data is shown in the "Notes to the Financial Statements" that help to explain some of the information in the financial statements.

a.i. Reconciliation of the 'Governmental Funds: Balance Sheet' to the 'Government-Wide Statement of Net Assets'

June 30, 2011

With Comparative Totals as of June 30, 2010

		2011		2010
Total fund balances of governmental funds	\$	46,640,770	\$	59,099,913
The amount reported as total net assets of governmental activities in the Government-Wic II.C.1.a) differs from the amount reported as total fund balances of governmental funds on the (Exhibit II.C.2.a) due to the use of different measurement focii and bases of accounting, specific	Gov	ernmental Fun	ds:	Balance Sheet
 Interest and penalties on overdue receivables are recognized as revenues when payment is received in the governmental funds, whereas an accrued receivable (asset), net of an allowance for uncollectible interest and penalties, is recognized on the Statement of Net Assets. The accrued receivable (asset) balance is: 		232,435		185,727
2. Governmental funds report expenditures for items that are treated as additions to long-term assets on the Statement of Net Assets. Total long-term assets is:		98,000		98,000
Governmental funds report expenditures for items that are treated as additions to capital assets on the Statement of Net Assets. Total capital assets before accumulated depreciation are:		181,123,364		149,393,833
4. Instead, the cost of capital assets is allocated to depreciation expense over the estimated useful life of the items and reported on the Statement of Activities. Total accumulated depreciation is:		(46,772,943)		(42,390,673)
5. Whereas, governmental funds record a deferred revenue (liability) for uncollected receivables because the monies are not available; uncollected receivables are recognized as revenues on the Statement of Activities when the monies are earned. The deferred revenue balance is:		3,168,790		2,594,378
6. Interest on long-term liabilities is recognized as an expenditure when due in the governmental funds; whereas, accrued expense (liability) is recognized on the Statement of Net Assets. The accrued interest payable balance is:		(798,601)		(226,341)
7. Long-term liabilities, which are not due and payable at the entire amount in the current period, are not recognized as fund liabilities of governmental funds. Principal reductions are recognized as expenditures in the period that the payment is made rather than reductions in the liability that is reflected on the Statement of Net Assets.		(57,893,968)		(41,847,269)
Total net assets of governmental activities	\$	125,797,847	\$	126,907,568

The "Notes to Financial Statements" are an integral part of this exhibit.

Cleveland County, North Carolina

b.i. Reconciliation of the 'Governmental Funds: Statement of Revenues, Expenditures, and Changes in Fund Balances' to the 'Government-Wide Statement of Activities'

For the Year Ended June 30, 2011

With Comparative Totals For the Year Ended June 30, 2010

	2011	2010
Net change in fund balances of governmental funds	\$ (12,459,143) \$	14,238,784

The amount reported as net change in net assets of governmental activities in the Government-Wide Statement of Activities (Exhibit II.C Sta an

The amount reported as net change in net assets of governmental activities in the Government-Wi II.C.1.b) differs from the amount reported as net change in fund balances of governmental fu Statement of Revenues, Expenditures, and Changes in Fund Balances (Exhibit II.C.2.b) due to the and bases of accounting, specifically relating to the following reasons:	ınds on the G	overnn	nental Funds:
1. Whereas all cash proceeds from the disposal of capital assets are recognized as revenues in governmental funds, both cash and non-cash gains and losses from the disposal of a capital asset are recorded on the Statement of Net Assets. Net gains (losses) are:	(196,3	23)	(762,957)
Governmental funds report expenditures for items that are treated as additions to capital and other long-term assets on the Statement of Net Assets. The current year's expenditures are:	32,167,0	44	12,752,450
3. Instead, the cost of capital assets is allocated to depreciation expenses over the estimated useful life of the items and reported on the Statement of Activities. The current year's depreciation expenses are:	(4,716,6	93)	(4,466,297)
4. Accrued payables for compensated absences and retirement benefits are recognized as expenditures when paid in governmental funds. The net decrease (increase) in accrued payables from prior year is recognized as prior (current) expenses.	(1,310,7	99)	(964,372)
5. Whereas governmental funds record a deferred revenue (liability) for uncollected receivables because the monies are not available, uncollected receivables are recognized as revenues on the Statement of Activities when the monies are earned. The net increase (decrease) in deferred revenues of governmental funds from prior fiscal year is recognized as a change in current revenues of governmental activities.	714,3	55	(1,431,261)
6. Governmental funds do not recognize long-term liabilities that are not due and payable in the current period. Thus, principal reductions are recognized as expenditures in the period that the payment is made rather than reductions in the liability as reflected on the Statement of Net Assets. The current year's principal payments made are:	2,847,0	4 8	3,250,871
7. Interest on long-term liabilities is recognized as an expenditure when due in the governmental funds; whereas, accrued expense (liability) is recognized on the Statement of Net Assets. An increase (decrease) in the liability's balance is recognized as a decrease (increase) in reported interest expense on the Statement of Activities. Also, since the County refinanced existing debt in March 2003, the difference between the old and new debt on the Statement of Net Assets will be amortized over the remaining life of the new debt (which has the same remaining life as the old debt). This amortized cost is reported as an adjustment to interest expense.	(572,2	60)	_
8. Governmental funds recognize the issuance of new debt as a source of financing for items that are treated as additions to long-term liabilities on the Statement of Net Assets. In the current year, the issuance of new debt amounted to:	(17,582,9	50)	(22,081,095)
Total net change in net assets of governmental activities	\$ (1,109,7	21) \$	536,123

The Notes to Financial Statements summarize significant accounting policies, provide essential details, and explain and add insight to the data contained in the Government-Wide Financial Statements and Fund Financial Statements.

Cleveland County, North Carolina Annual Financial and Compliance Report For the Fiscal Year Ended June 30, 2011 C. Basic Financial Statements 3. Notes to Financial Statements

Note a: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Cleveland County and its component unit conform to generally accepted accounting principles as applicable to governments in the United States. For the year ended June 30, 2011, the County implemented changes in its fund structure and fund balance reporting in accordance with Governmental Accounting Standards Board (GASB) Statements No. 54 ("Fund Balance Reporting and Governmental Fund Type Definitions"). All previously issued statements from GASB and other standard-setting bodies have been implemented to the extent applicable. The following is a summary of the more significant accounting policies.

A. Reporting Entity

Cleveland County, which is governed by a five-member board of commissioners, is one of the 100 counties established in North Carolina under North Carolina General Statute (NCGS) 153A-10. As required by generally accepted accounting principles, these financial statements present the County and its component unit, which is a legally separate entity for which the County is financially accountable. Cleveland County Industrial Facility and Pollution Control Financing Authority (the *Authority*) is the County's sole component unit. The Authority exists to issue and service revenue bond debt of private businesses for economic development purposes. The Authority has no financial transactions or account balances and, therefore, is not presented in the Basic Financial Statements of the County. As well, the Authority does not issue separate financial statements. The Authority is considered a component unit of the County because Cleveland County's Board of County Commissioners appoints all seven members of the board of commissioners that oversee the Authority and can remove any member with or without cause.

Although the County has statutory responsibility to provide school facilities, the local education authority (Cleveland County Schools) is a legally separate entity, not a component unit.

B. Basis of Presentation

a. <u>Government-Wide Financial Statements</u>: The Statement of Net Assets and the Statement of Activities display information about the primary government (the County). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed primarily, in whole or in part, by fees charged to external parties. Nonetheless, fees for certain activities for which governments have a legal responsibility are included in governmental activities regardless of whether fees are charged to external parties.

The Statement of Activities presents a comparison between the direct expenses and the program revenues for each business-type activity of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, such as the general property tax, are presented as general revenues.

b. <u>Fund Financial Statements</u>: The Fund Financial Statements provide information about the County's funds, including its fiduciary funds that were eliminated from the Government-Wide Financial Statements. Separate statements for each fund category – *governmental*, *proprietary*, *and fiduciary* – are presented. The emphasis of Fund Financial Statements is on major governmental and enterprise funds, each displayed in a separate column.

(Enterprise funds are a type of proprietary funds.) Any remaining governmental and enterprise funds are aggregated and reported as non-major funds. All fiduciary funds are presented in a separate statement by type.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as tax subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The County reports the following major governmental funds:

General Fund. This fund, the County's primary operating fund, accounts for all financial resources of the general government, except those required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, other taxes, and federal and State grants. The primary expenditures are for education, emergency services, health services, law enforcement functions, and social services (including public assistance). Due to implementation of GASB Statement No. 54, the previously reported Public Schools Fund and Revaluation Fund are now consolidated into the General Fund. See 'Note h' for more details.

Capital Projects Fund. This fund accounts for various proceeds that are designated to support expansions and renovations of County property and to support other capital acquisitions of the County; for various proceeds that are restricted by certain laws of the State of North Carolina to support buildings, renovations, and other capital needs of County schools; and for various capital improvement projects funded by the aforementioned proceeds. Due to implementation of GASB Statement No. 54, the County consolidated three funds (County Capital Reserve Fund, Schools Capital Reserve Fund, and County Capital Projects Fund) into one for reporting purposes. See 'Note h' for more details.

The County reports the following four non-major governmental funds: the Emergency Telephone Fund, the County Fire Service District Fund, the Community Development Fund, and the Debt Service Fund. These funds have been combined and reported as non-major funds in the Fund Financial Statements. Combining and individual fund statements may be found on the pages following these Notes to Financial Statements.

Also, the County reports the following major enterprise fund:

Solid Waste Fund-Collection and Disposal. This fund accounts for the operation, maintenance, and development of the County landfill facilities and each collection/recycling center.

In addition, the County reports the following fiduciary fund types:

Agency Funds. Agency funds are custodial in nature (where assets equal liabilities) and do not involve the measurement of operating results. Agency funds are used to account for assets the County holds on behalf of others. The County maintains the following agency funds: 1) the Social Services Fund, which accounts for monies deposited with the Department of Social Services for the benefit of certain individuals; 2) the Inmate Fund, which accounts for monies deposited with the County's Detention Center for the benefit of specific inmates; 3) the Rescue Squad Fund, which accounts for monies that the County holds for the benefit of five rescue squad entities (Boiling Springs Rescue Squad, Grover Rescue Squad, Kings Mountain Rescue Squad, Shelby Rescue Squad, and Upper Cleveland Rescue Squad); 4) the Fines and Forfeitures Fund, which accounts for various legal fines and forfeitures that the County is required to remit to the County school district and for the three percent interest penalty on the first month of delinquent registered motor vehicle property taxes that the County is required to remit through the North Carolina Department of State Treasurer to the Division of Motor Vehicles of the North Carolina Department of Transportation; and 5) the Property Tax Fund, which accounts for property taxes that are billed and collected by the County on behalf of three fire districts, one water authority, and twelve municipalities within the County (three other municipalities do not levy property taxes).

C. Measurement Focus, Basis of Accounting

In accordance with NCGS 159, all funds of the County are maintained during the year using the modified accrual basis of accounting. However, year-end adjustments are made to proprietary funds to report the funds on a different basis of accounting called the (full) accrual basis of accounting.

All governmental and business-type activities and enterprise funds of the County follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

Since the governmental funds apply the modified accrual basis of accounting during the year and in the Fund Financial Statements, yet report using the (full) accrual basis of accounting in the Government-Wide Financial Statements, a reconcilement is included in the Fund Financial Statements. The reconcilement itemizes the differences between the total fund balances of the governmental funds and the total net assets of the governmental activities. Both of these items constitute equity, yet are measured differently.

a. <u>Government-Wide</u>, <u>Proprietary</u>, and <u>Fiduciary Fund Financial Statements</u>. The Government-Wide, Proprietary, and Fiduciary Fund Financial Statements are reported using the economic resources measurement focus and the full accrual basis of accounting, except that agency funds have no measurement focus (agency funds have no revenues or expenditures). Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the County receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes, grants, entitlements, and donations. On a full accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County enterprise fund are charges to customers for services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, depreciation on capital assets, and landfill closure and post-closure care costs. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

b. <u>Governmental Fund Financial Statements</u>. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

The County considers all revenues applicable to the fiscal year, except for ad valorem property taxes, as available if they are collected within 90 days after year-end. Ad valorem property taxes are not accrued as revenues because the amount is not susceptible to accrual. At June 30, ad valorem property tax receivables are materially past due and are not considered to be an available resource to finance the operations of the current year. Therefore, ad valorem property tax receivables are offset by deferred revenues which are reported as a liability on the balance sheet. Prepayments on unbilled taxes that are not due until the following fiscal year are reported as unearned revenues.

Also, as of January 1, 1993, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, Cleveland County is responsible for billing and collecting the property taxes on all registered motor vehicles on behalf of all municipalities and special tax districts in the County.

For motor vehicles, property taxes are due the first day of the fourth month after the vehicles are registered. The billed taxes are applicable to the fiscal year in which they become due. Therefore, taxes for vehicles registered from March 2010 through February 2011 apply to the fiscal year ended June 30, 2011. Uncollected taxes that were billed during this period are shown as a receivable on these financial statements. The taxes for vehicles registered from March 2011 and afterward and due on or after July 1, 2011 that were collected as of year-end are reflected as unearned revenues because they are intended to finance the County's operations during the ensuing fiscal year.

Any property taxes collected by the County for municipalities or special tax districts prior to June 30 which are not remitted to those governmental entities until after the fiscal year-end are reported as an intergovernmental payable at year-end in the agency funds.

Sales taxes collected and held on behalf of the County by the State for sales occurring prior to year-end are recognized as revenue. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been satisfied. Otherwise, intergovernmental revenues and sales and services are not susceptible to accrual because they are generally not measurable until received in cash.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. Unless the grantor stipulates otherwise, it is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Budgetary Data

The County's budgets are adopted as required by NCGS 159. The annual budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual budget ordinance can be adopted. An annual budget ordinance sets equal amounts for estimated revenues and for appropriations (or estimated expenditures) by fund and is adopted for all annually budgeted funds, which includes the General Fund, the Emergency Telephone Fund, the County Fire Service District Fund, the Debt Service Fund, and the Solid Waste Fund. Unencumbered annual appropriations lapse at fiscal year-end. Project ordinances are adopted for large projects that overlap multiple fiscal years, such as for the Community Development Fund and the Capital Projects Fund, and some grant funded projects. All budgets, project ordinances, and amendments are prepared using the modified accrual basis of accounting.

Expenditures may not legally exceed appropriations at the functional level for the General Fund, at the department level for the annually budgeted funds, and at the object level for the multi-year funds. The County Manager is authorized to transfer appropriations between any and all funds and departments without affecting the County's total budget and to carry forward unspent budget for continuing projects.

However, except for ongoing projects, the governing board must consider for approval all amendments that alter total estimated revenues or total appropriations. During the year, the governing board approved to finance up to \$18,000,000 of construction costs for a multi-use facility at Cleveland Community College, accept a grant of \$1,543,000 to renovate the historic courthouse, and accept several sizable grants to assist with recruitment of new industry. Several other less significant new amendments to the original budget were necessary.

E. Assets, Liabilities, and Fund Equity

1. Deposits and Investments

All deposits of the County are made in board-designated official depositories and are secured as required by NCGS 159-31. The County may designate as an official depository any bank or savings association whose principal office is located in North Carolina. Also, the County may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

NCGS 159-30(c) authorizes the County to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; and the North Carolina Capital Management Trust (NCCMT).

The County's non-money market investments and investments that mature more than one year after acquisition are carried at fair value as determined by quoted market prices. The securities of the NCCMT Cash Portfolio, an SEC-registered (2a-7) money market mutual fund, are valued at fair value, which is the NCCMT's share price. Non-participating interest earning investment contracts are reported at cost.

2. Cash and Cash Equivalents

The County pools monies from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all deposits and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Restricted Assets

The unexpended debt proceeds of a bond sale and installment purchase loans issued by the County are classified as restricted assets in the Capital Projects Fund since their use is completely restricted to the purpose for which the loan was originally issued.

4. Ad Valorem Property Taxes Receivable

In accordance with NCGS 105-347 and NCGS 159-13(a), the County levies ad valorem taxes on property other than motor vehicles on July 1, which is the beginning of the fiscal year. These taxes are based on the assessed values as of the January 1 that immediately precedes the July 1 levy. The taxes are due on September 1, which is called the lien date; however, penalties and interest do not accrue until the following January 6. As allowed by State law, the County has established a schedule of discounts that apply to such taxes that are paid prior to the due date. In the County's General Fund, Public Schools Fund, and County Fire Service District Fund, ad valorem tax revenues are reported net of such discounts.

5. Allowances for Uncollectible Accounts

All receivables that historically experience significant uncollectible accounts are shown net of an allowance for doubtful accounts. The allowance amount is usually estimated by analyzing the percentage of receivables that were written off in prior years. However, in the Solid Waste Fund, the allowance amount is determined by adding all amounts over 90 days old.

6. Inventories and Prepaid Items

The inventories of the County are valued at cost (first-in, first-out). The County's General Fund inventory consists of pharmaceuticals and certain pharmaceutical supplies that are recorded as expenditures when purchased. In the Fund Financial Statements, the amount of inventory is offset by a fund balance reserve on the balance sheet. A fund balance reserve indicates an amount of resources that is not available for liquidating fund liabilities.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both Government-Wide and Fund Financial Statements. The consumption method of accounting for prepaid items is used, meaning that such items are recorded as expenses in the period in which they are used. In the Fund Financial Statements, the amount of prepaid items is offset by a fund balance reserve to indicate that these resources are not available for liquidating fund liabilities.

7. Capital Assets

The County's capital assets are shown as assets in the Government-Wide Financial Statements and financial statements of the enterprise fund. In the financial statements of the governmental funds, these purchases are shown as expenditures. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. Minimum capitalization costs are as follows: infrastructure and building improvements, \$100,000; computer equipment, electronic items, firearms, furniture, other equipment, utility trailers, and vehicles, \$5,000; and land, land improvements, and buildings at \$0. The cost of normal maintenance and repairs that do neither add to the value of the asset nor materially extend the estimated life of the asset are not capitalized.

Capital assets are depreciated on a straight-line basis over the following estimated useful lives:

	Estimated
Capital Asset Category	Useful Life
Computer equipment	3 years
Electronic items, utility trailers, and vehicles	5 years
Firearms, furniture, and other equipment	7 years
Infrastructure and depreciable improvements	15 years
Buildings	39 years

8. Long-Term Obligations

In the Government-Wide Statement of Net Assets and in the Solid Waste Fund's Statement of Net Assets in the Fund Financial Statements, long-term debt and other long-term obligations are appropriately reported as liabilities of the applicable governmental activities, business-type activities, or enterprise fund. Bond premiums and discounts, as well as refunding and issuance costs, are not expensed all at once. Instead, these items are reported on the balance sheet and amortized (or expensed) over the life of the bonds using the straight-line method that approximates the effective interest method.

In the Fund Financial Statements for governmental fund types, the face amount of debt issued is reported as Other Financing Sources in the fiscal year that debt is issued and corresponding payments of principal, interest, underwriter fees, and other fees are shown as expenditures in the appropriate fiscal year. Related bond premiums and discounts, as well as refunding and issuance costs, are recorded as Other Financing Sources (Uses) in the year that the debt is issued. No balance sheet recognition is made for outstanding debt or other long-term obligations.

9. Compensated Absences

The vacation policy of the County provides for the accumulation of up to thirty days earned vacation leave with such leave being fully vested when earned. For the County's Government-Wide and enterprise fund, an expense and a liability for compensated absences and the salary-related payments are recorded as the vacation leave is earned.

The holiday leave policy of the County provides for the accumulation of earned holiday leave with such leave being fully vested when earned. For the County's Government-Wide and enterprise fund, an expense and a liability for compensated absences and the salary-related payments are recorded as the holiday leave is earned.

The overtime policy of the County provides for the accumulation of up to sixty days for public safety employees and up to thirty days for all other non-exempt employees. Non-exempt employees will earn compensatory hours at the rate of one and one-half times the number of hours worked above forty hours during a specific week. Exempt employees earn an hour of compensatory leave for each hour worked above forty hours during the workweek, yet no maximum is set since compensatory hours earned by exempt employees will not be paid upon termination of employment. For the County's Government-Wide and enterprise fund, an expense and a liability for compensated absences and the salary-related payments are recorded as the overtime is earned by public safety employees and all other non-exempt employees.

The sick leave policy of the County provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be added in the determination of

length of service for retirement benefit purposes. Since the County has no obligation for accumulated sick leave until it is actually taken, an accrual for sick leave has not been made.

The County has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability in the Government-Wide Financial Statements.

10. Net Assets/Fund Balances

a. Net Assets

Net assets in the Government-Wide Financial Statements and enterprise Fund Financial Statements are classified as "unrestricted," "restricted," or "invested in capital assets, net of related debt." Restricted net assets represent constraints on resources that are either a) imposed by law through State statute or b) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments. The component called "invested in capital assets, net of related debt" reports the total amount of capital assets as reduced by accumulated depreciation and remaining outstanding debt used to finance the purchase or construction of any capital assets. Unrestricted net assets is the remainder of net assets not classified as either restricted or invested in capital assets, net of related debt. More information can be found in 'Note b. Detail Notes on All Funds' that begins on the next page.

b. Fund Balances

In the governmental Fund Financial Statements, fund balance is composed of five reported classifications designed to disclose the hierarchy of constraints placed on how fund balance may be spent.

The governmental fund types classify fund balances as follows:

Nonspendable – portion of fund balance that cannot be spent because they are either (a) not in spendable form (e.g. inventories) or (b) legally or contractually required to be maintained intact (e.g. principal of an endowment).

Inventories - portion of fund balance not available for appropriation because it represents the year-end balance of ending inventories, which are not expendable (i.e. not available) resources.

Prepaid Items - portion of fund balance not available for appropriation because it represents the year-end balance of prepaid expenditures, which are not expendable resources.

Restricted - portion of spendable fund balance restricted to specific purposes that are externally imposed by creditors or law.

Restricted for Stabilization of State Statute - portion of spendable fund balance that is not available for appropriation under NCGS 159-8(a). This amount is typically comprised of receivables that are not offset by deferred revenues.

Restricted for School Capital Projects – portion of spendable fund balance available and legally restricted to pay for school capital projects and funded by a portion of sales taxes.

Restricted for Emergency Telephone – portion of spendable fund balance available and legally restricted to pay for approved items for operation of emergency telephone system.

Restricted for County Fire Service District – portion of spendable fund balance available and legally restricted to pay for fire protection services within County Fire Service District.

Restricted for Library – portion of spendable fund balance available and restricted by donors to pay for library books and other library materials.

Restricted for Cooperative Extension – portion of spendable fund balance available and restricted to pay for cooperative extension programs, such as basket weaving and 4-H.

Restricted for Public Safety – portion of spendable fund balance available and restricted by donors and other outside parties to pay for items of a public safety nature, such as canine care.

Restricted for Human Services – portion of spendable fund balance available and restricted by donors to pay for items of a human services nature, such as medications and eyeglasses for needy persons.

Committed – portion of spendable fund balance committed to specific purposes that are imposed by Board of County Commissioners (highest level of decision-making authority); any changes or removal of specific purposes requires majority action by same board.

Assigned – portion of spendable fund balance assigned to specific purposes that are either budgeted by Board of County Commissioners or manifested by the County Manager.

Subsequent year's expenditures - portion of spendable fund balance that is appropriated in the adopted budget ordinance of the following fiscal year and not classified as either restricted or committed.

Public health - portion of spendable fund balance that is assigned for future expenditures for public health based on the amount of unspent resources calculated by Health Department staff and not classified as either restricted, committed, or assigned for subsequent year's expenditures.

Insurance claims – portion of spendable fund balance that is assigned for future liabilities arising from both current and future workers' compensation, health insurance, and dental insurance claims and not classified as either restricted, committed, or assigned for subsequent year's expenditures.

Incomplete projects – portion of spendable fund balance that is assigned for future expenditures of continuing projects and not classified as either restricted, committed, or assigned for subsequent year's expenditures.

Unassigned – portion of spendable fund balance that does not meet the classification requirements of restricted, committed, or assigned fund balance.

Restrictions of fund balance represent amounts that either are legally segregated for a specific purpose or are not appropriable. NCGS 159-13(b)(16) restricts the appropriation of fund balance to an amount not to exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts as calculated at the end of the fiscal year preceding the appropriation. This calculated amount represents fund balance available for appropriation. After accounting for nonspendable fund balance, Restricted for Stabilization of State Statute is the remaining non-appropriable portion of fund balance. The Board of County Commissioners seeks to conduct the financial affairs of the County in such a manner so as to achieve a fund balance available for appropriation in the General Fund of at least 8% of appropriations (a.k.a. budgeted expenditures).

Remaining fund balances may be restricted, committed, or assigned for other purposes. Unassigned fund balance represents the amount of fund balance that could still be committed or assigned.

To provide guidance in situations involving multiple revenue sources, the County will use resources in the following order: cost-reimbursement grant funds, federal-source funds, state-source funds, other non-debt third-party-source funds, debt proceeds, and County funds. Likewise, the County intends to expend resources that have been classified as fund balance in the following order: restricted, committed, assigned, and unassigned. The County Finance Director is authorized to deviate from this policy to comply with funding stipulations and when in the best interest of the County.

F. Reconciliation of Government-Wide Financial Statements and Fund Financial Statements

A schedule of reconciliations is required to explain the differences both 1) between total net assets of governmental activities shown in 'Government-Wide Statement of Net Assets' and total fund balances shown in 'Governmental Funds: Balance Sheet'; and 2) between the change in net assets of governmental activities shown in the 'Government-Wide Statement of Activities' and the net change in fund balance shown in 'Governmental Funds: Statement of Revenues, Expenditures, and Changes in Fund Balance.'

Following the governmental fund Balance Sheet, 'Exhibit II.C.2.a.i' in Part 2 of Subsection C of Section II provides the reconciliation between 1) total fund balance of governmental funds as reported in the governmental fund Balance Sheet and 2) total net assets of governmental activities as reported in the Government-Wide Statement of Net Assets. The primary differences result from the treatment of capital assets and long-term liabilities.

Following the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances, 'Exhibit II.C.2.b.i' in Part 2 of Subsection C of Section II provides the reconciliation between 1) changes in total fund balances of the governmental funds as reported in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances and 2) changes in net assets of governmental activities as reported in the Government-Wide Statement of Activities. The primary differences result from the treatment of capital assets and long-term liabilities.

Note b: <u>DETAIL NOTES ON ALL FUNDS</u>

A. Assets

1. Deposits

All of the County's deposits are either insured or collateralized by using one of two methods, dedicated and pooling. Under the dedicated method, all deposits exceeding the federal depository insurance coverage (FDIC) level are collateralized with securities held by the County's agents in the County's name. Under the pooling method, which is a collateral pool, all uninsured deposits are collateralized with securities held by an agent of the North Carolina Department of State Treasurer in the name of the North Carolina Department of State Treasurer (DST). Since DST is acting in a fiduciary capacity for the County, these deposits are considered as held by the County's agent in the County's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest bearing deposits. Depositories using the pooling method report to the DST on the adequacy of their pooled collateral covering uninsured deposits. DST does not confirm this information with the County or with the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the County under the pooling method, the potential exists for under collateralization, and this risk may increase in periods of high cash flows. However, DST enforces strict standards of financial stability for each depository that collateralizes public deposits under the pooling method.

For bank deposits, custodial credit risk is the risk that, in the event of the failure of a financial institution, the County will not be able to recover its deposits or collateral securities that are in the possession of the financial institution or another counterparty. In an effort to minimize the County's exposure to custodial credit risk, the County's policy states that periodic evaluations will be conducted to determine the creditworthiness of each financial institution. Also, the County complies with the provisions of NCGS 159-31 when designating official depositories and verifying that deposits are properly secured and, thus, partially relies on DST to enforce standards of minimum capitalization for all institutions using the pooling method and to monitor these institutions for compliance.

At June 30, 2011, the County's deposits had a carrying amount of \$41,437,444 and a bank balance of \$42,517,221. Of the bank balance, \$1,000,000 was covered by federal depository insurance, \$20,336,552 in certificates of deposit was covered by collateral held under the dedicated method, and the remaining \$21,160,205 in interest bearing deposits was covered by collateral held under the pooling method. Also at June 30, 2011, Cleveland County had

\$11,519 cash on hand. During the year, the County met its cash flow needs from its deposits and matured investments; the County did not use any short-term borrowings.

The County had a carrying amount of \$20,336,552 in certificates of deposit. Of this balance, \$4,026,320 was scheduled to mature within 3 months, \$12,041,756 was scheduled to mature within 3 to 12 months, and \$4,268,476 was scheduled to mature within 1 to 2 years.

2. Investments

For a schedule of cash and investment balances by fund and other information, see 'Exhibit II.E.01' in Subsection E of Section II of this report. At June 30, 2011, the County's investment balances and maturities were as follows:

]	Fair Market	Due to Mature Within:					
Investment Type		Value	up	to 1 year		1 to 2 years		2 to 3 years
NCCMT Cash Portfolio		12,929,427		n/a		n/a		n/a
Total Investments	\$	12,929,427	\$	-	\$	-	\$	

Together, deposits and investments represent significant resources that are exposed to certain common risks. As a means of limiting its exposure to fair value losses arising from rising interest rates, the County limits at least half of the County's investment portfolio to maturities of less than 12 months. Also, the County's investment policy requires purchases of securities to be laddered with staggered maturity dates and limits all securities to a final maturity of no more than three years. Both of these methods serve to reduce the County's interest rate risk.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to relinquish the County's assets in a timely manner. State law limits investments to certain types of instruments and credit ratings. For example, investments in commercial paper must have the top rating issued by nationally recognized statistical rating organizations (NRSROs). As of June 30, 2011, the County's investments in the North Carolina Capital Management Trust (NCCMT) Cash Portfolio carried a credit rating of AAAm by Standard & Poor's. To further hedge against credit risk, the County's policy on investments requires diversification among financial instruments and requires the investment officer to routinely monitor financial market conditions.

During the year ended June 30, 2011, all investments sold were held to maturity with no recognized (realized or unrealized) gains or losses. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current year may have been recognized as an increase or decrease in the fair value of investments reported in the prior year. The calculation of realized gains and losses is independent of the calculation of the net increase in the fair value of investments. The calculation of the net increase in the fair value of investments takes into account all changes in fair value (including purchases and sales) that occurred during the year. The net increase in the fair value of investments and the unrealized loss on investments held at year-end for the year ended June 30, 2011 was \$-0- and (\$-0-), respectively.

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County's policy specifies various limits that may be invested at any one financial institution. For example, the County's policy limits the County's investments with certificates of deposits at First National Bank of Shelby at 33% of the total portfolio. At June 30, 2011, the County held 17.60% of its deposits and investments in the form of certificates of deposit with First National Bank of Shelby. Remaining deposits and investments are held with a variety of issuers.

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover its investments or collateral securities that are in the possession of an outside party. In an effort to minimize the County's exposure to custodial credit risk, the County complies with the provisions of NCGS 159-30 when choosing investments and verifies that investments are properly secured.

3. Property Tax - Use-Value Assessment on Certain Lands

In accordance with NCGS, the County may assess agriculture, horticulture, and forest land at the present usevalue rather than market value for purposes of the annual property tax assessment. When property loses its eligibility for present use-value taxation, the property tax bill is recomputed at market value for the current year and the three preceding years, along with accrued interest from the original due date. The recomputed property tax that is based on market value would be immediately due and payable.

The amount of lost revenue from assessing certain properties at the present use-value is not recorded in the financial statements. The following chart displays the amount of property taxes that would become due if all qualified properties in the County had lost eligibility for present use-value taxation on June 30, 2011:

Tax Year Levied	A	dditional Tax	Interest	Total	
2011	\$	1,470,155	\$ -	\$	1,470,155
2010		1,466,902	84,347		1,551,249
2009		1,467,063	216,392		1,683,455
2008		1,487,187	353,207		1,840,394
Total	l \$	5,891,307	\$ 653,946	\$	6,545,253

Property taxes are billed on a calendar year basis, not fiscal year basis. The value is set on January 1, billed in July, due September 1, and late as of the following January 6. If a property loses eligibility for present-use value taxation between January 1 and June 30, the current year taxes will become due when billed in July. The year under "Tax Year Levied" in the following chart refers to the calendar year.

4. Receivables

Receivables reported on the Government-Wide Financial Statements and Fund Financial Statements at June 30, 2011 are reported net of an allowance for uncollectible accounts as follows:

	Taxes & Other Accounts Assessments		Total			
Governmental Activities:						
General Fund	\$	11,215,925	\$	3,345,461	\$	14,561,386
Capital Projects Fund		2,205,731		-		2,205,731
Nonmajor Governmental Funds		707,117		62,845		769,962
Accrued Interest (Government-Wide reporting)	<u>-</u>		801,367			801,367
Total Receivables		14,128,773		4,209,673		18,338,446

Total Allowances for Uncollectible Accounts	(4,630,517) (1,860,195)			(6,490,712)		
Total Governmental Activities	\$	9,498,256	\$	2,349,478	\$	11,847,734
Business-Type Activities:						
Solid Waste Fund-Collection and Disposal	\$	583,378	\$	216,866	\$	800,244
Allowances for Uncollectible Accounts		(19,538)		(216,866)		(236,404)
Total Business-Type Activities		563,840	\$	-	\$	563,840

5. <u>Capital Assets</u>

The table below displays the changes in capital assets, including accumulated depreciation, by expenditure functions/programs of <u>Governmental Activities</u>. Depreciation expense was charged to functions/programs as shown under "Additions" to accumulated depreciation. Other changes in accumulated depreciation were offset by changes in capital assets or by recording gains/losses on the disposition of capital assets.

	Beginning				Ending

Fiduciary Activities:						
Agency Funds	\$	181,292	\$ _	\$ 102,163	\$ 	\$ 283,455

^{*} The estimated liability for outstanding losses from health insurance coverage, dental plan, and workers' compensation coverage includes \$740,956 for incurred but not reported claims.

2. Pension Plan Obligations

a. Local Governmental Employees' Retirement System (LGERS)

Plan Description. The statewide Local Governmental Employees' Retirement System (LGERS) provides retirement and disability benefits to plan members and beneficiaries. Cleveland County contributes to LGERS, a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. According to Article 3 of NCGS 128, the North Carolina General Assembly has the authority to establish and amend benefit provisions. The State of North Carolina's annual financial report includes financial statements and required supplementary information for LGERS. You may obtain the State's annual financial report by submitting your request to the Office of the State Controller, (919) 981-5454, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410.

Funding Policy. Plan members are required to contribute six percent of their annual covered salary. The County is required to contribute at an actuarially determined rate. For the County, the rate effective in the year ended June 30, 2011 for employees not engaged in law enforcement and for law enforcement officers is 6.44% and 6.41%, respectively, of annual covered payroll. The contribution requirements of members and of Cleveland County are established and may be amended by the North Carolina General Assembly. In year ending June 30, 2012, the County's contribution rates have increased to 6.96% and 7.04% for employees not engaged in law enforcement and for law enforcement officers, respectively. The County's normal benefit contributions to LGERS for the year ended June 30, 2011 is \$1,752,277. The contributions made by the County equaled the required contributions for each year. For trend information, see Exhibit III.E.5 in Subsection E of Section III of this report.

Death Benefit. The County has elected to provide death benefits (also known as term life insurance) to employees through the Death Benefit Plan for members of the LGERS, a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in LGERS, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the LGERS at the time of death, are eligible for death benefits. Lump-sum death benefit payments to beneficiaries are equal to the employee's 12 highest months salary in a row during the 24 months prior to the employee's death, subject to a minimum of \$25,000 and a maximum of \$50,000. All death benefit payments are made from the Death Benefit Plan. The County has no liability beyond the payment of monthly contributions. Contributions are determined as a percentage of monthly payroll, based upon rates established annually by the State. The County's required

contributions for employees not engaged in law enforcement and for law enforcement officers represented 0.08% and 0.14% of covered payroll, respectively. Because the benefit payments are made by the Death Benefit Plan and not by the County, the County does not determine the number of eligible participants. For the fiscal year ended June 30, 2011, the County made contributions to the State for death benefits of \$23,734. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. The County considers these contributions to be immaterial. For trend information, see Exhibit III.E.5 in Subsection E of Section III of this report.

b. Law Enforcement Officers' Special Separation Allowance (LEOSSA)

Plan Description. Cleveland County administers a public employee retirement system named the Law Enforcement Officers' Special Separation Allowance (LEOSSA). The LEOSSA is a single-employer defined benefit pension plan that provides retirement benefits to the County's qualified sworn law enforcement officers. According to Article 12D of NCGS 143, the North Carolina General Assembly has the authority to establish and amend benefit provisions. The retirement benefit is equal to 0.85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Since no assets have been set aside to provide for future benefit payments, the LEOSSA is not reported as a pension trust fund in the County's annual financial report. And, a separate report has not been issued for this pension plan. See more details in Part II.D.1 of this annual financial report. All full-time County law enforcement officers are covered by the LEOSSA. At June 30, 2011, the LEOSSA's membership consisted of:

Member Category	No.
retirees currently receiving benefits	10
terminated plan members entitled to but not yet receiving benefits	-
active plan members:	
Vested	75
non-vested	14
total members	99

Summary of Significant Accounting Policies. The County's contributions to the plan are recognized when due and when a formal commitment has been made to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of the plan. However, no funds are set aside to pay benefits and administration costs; instead, these expenditures are paid as they come due.

Funded Status and Funding Progress. As of the most recent actuarial valuation date (December 31, 2010) and through June 30, 2011, the County had no assets to pay future liabilities. The actuarial accrued liability for benefits and the unfunded actuarial accrued liability (UAAL) was \$1,546,105. The annual payroll of active employees covered under this plan (covered payroll) was \$3,336,824 and the ratio of the UAAL to the covered payroll was 46.335%. For multi-year trend information concerning the actuarial value of assets, liabilities, and covered payroll, see Exhibit II.D.1.a (Schedule of Funding Progress) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

Countributions. Article 12D of NCGS 143 requires the County to provide these retirement benefits. Cleveland County funds the LEOSSA benefit payments and administration expenses on a pay-as-you-go basis through appropriations made in the General Fund operating budget. Therefore, without advanced contributions, the County has no pension trust plan. The County's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Members made no contributions. The County's contribution for the year ended June 30, 2011 is \$94,007. For multi-year trend information, see Exhibit II.D.1.b (Schedule of Employer Contributions) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

Annual Required Contribution. The annual required contribution for the current year was determined as part of the December 31, 2009 actuarial valuation using the projected unit credit actuarial cost method. The actuarial

assumptions included projected salary increases of 4.5% to 12.3% per year, including an inflation component of 3.75%. The assumptions did not include post-employment benefit increases. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The current rate is 4.4648% of annual covered payroll. The remaining amortization period at December 31, 2009 was 21 years. For multi-year trend information, see Exhibit II.D.1.b (Schedule of Employer Contributions) and Exhibit II.D.1.c (Notes to Financial Schedules) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

Annual Pension Cost and Net Pension Obligation. The County's annual pension cost and net pension obligation to LEOSSA for the current year ended June 30, 2011 are \$153,076 and \$441,659, respectively. For more information, see Exhibit II.D.1.b (Schedule of Employer Contributions) and Exhibit II.D.1.c (Notes to Law Enforcement Officers' Special Separation Allowance) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

c. Supplemental Retirement Income Plan for Law Enforcement Officers (SRIP)

Plan Description. The County contributes to the Supplemental Retirement Income Plan (SRIP), a defined contribution pension plan administered by the North Carolina Department of State Treasurer and a Board of Trustees. SRIP provides retirement benefits to law enforcement officers employed by the County. According to Article 5 of NCGS 135, the North Carolina General Assembly has the authority to establish and amend benefit provisions. The Comprehensive Annual Financial Report (CAFR) for the State of North Carolina includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the SRIP. The State's CAFR may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Article 12E of NCGS 143 requires the County to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. Contributions for the year ended June 30, 2011 were \$249,742, which consisted of \$172,195 from the County and \$77,547 from the law enforcement officers. For trend information, see Exhibit III.E.5 in Subsection E of Section III of this report.

d. Deferred Compensation Plan (401(k)) for Employees Other Than Law Enforcement Officers

Plan Description. The County offers all employees, other than law enforcement officers, a deferred compensation plan created in accordance with Internal Revenue Code Section 401(k). Through the plan, employees may defer a portion of their salary until future years. The deferred compensation will become available upon the employee's termination, retirement, death, or unforeseeable emergency. Prudential Financial, Inc. administers the plan.

Funding Policy. The County contributes each month an amount equal to five percent of qualified salary. Also, the employees may make voluntary contributions to the plan. Contributions for the year ended June 30, 2011 were \$1,661,123, which consisted of \$1,205,919 from the County and \$455,204 from the employees. For trend information, see Exhibit III.E.5 in Subsection E of Section III of this report.

e. Registers of Deeds' Supplemental Pension Fund (RODSPF)

Plan Description. Cleveland County also contributes to the Registers of Deeds' Supplemental Pension Fund (RODSPF), a non-contributory, defined contribution plan administered by the North Carolina Department of State Treasurer (DST). RODSPF provides supplemental pension benefits to any eligible county register of deeds who is retired under the Local Government Employees' Retirement System (LGERS) or an equivalent locally sponsored plan. According to Article 3 of NCGS 161, the North Carolina General Assembly has the authority to establish and amend benefit provisions. The Comprehensive Annual Financial Report (CAFR) for the State of North Carolina includes financial statements and required supplementary information for the RODSPF. The State's CAFR may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. On a monthly basis, the County remits to DST an amount equal to one and one-half percent (1.5%) of the monthly receipts collected as of July 1, 2007 pursuant to Article 1 of NCGS 161. Before the law changed, the County remitted to DST an amount equal to four and one-half percent (4.5%) of the monthly receipts. Immediately following January 1 of each year, DST divides ninety-three percent (93%) of the amount in the Fund at the end of the preceding calendar year into equal shares to be disbursed as monthly benefits. The remaining seven percent (7%) of the Fund's assets may be used by DST in administering the Fund. For the fiscal year ended June 30, 2011, the County's required and actual contributions were \$5,012. For trend information, see Exhibit III.E.5 in Subsection E of Section III of this report.

f. Other Post-Employment Benefits -- Retirees Healthcare Coverage (OPEB-RHC)

Plan Description. As a single-employer defined benefit plan, Cleveland County provides healthcare coverage to retirees of the County who participate in the North Carolina Local Governmental Employees' Retirement System (LGERS), are at least 50 years of age, and have twenty or more years of creditable service with the County until they attain the age for Medicaid eligibility. At June 30, sixty-seven retirees were receiving post-employment healthcare benefits. Since no assets have been set aside to provide for future benefit payments, the OPEB-RHC is not reported as a pension trust fund in the County's annual financial report. The County has contracted with a private insurer to administer the payment of claims and the County reimburses the insurer each week. A separate report has not been issued for this benefit plan. See details in Part II.D.2 of this annual financial report. This report includes results from an actuarial study of the plan, thus comparative information from prior years is limited. At December 31, 2009 (which is the date of the latest actuarial valuation), the OPEB-RHC's membership consisted of:

	LEO	Otner
Member Category	No.	No.
Retirees currently receiving benefits	7	52
Terminated plan members entitled to but not yet receiving	-	-
benefits		
Active plan members:		
Vested	8	83
Non-vested and eligible for LGERS benefits	64	250
Non-vested and non-eligible for LGERS benefits	39	259
Total members	118	644

Summary of Significant Accounting Policies. The County's contributions to the plan are recognized when due and when a formal commitment has been made to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of the plan. However, no funds are set aside in a trust fund to pay benefits and administration costs; instead, these expenditures are paid as they come due.

Funding Policy. The County pays the entire cost of coverage for healthcare benefits for eligible retirees. Although all employees can purchase coverage for their dependents at the County's group rates, retirees can only purchase coverage under C.O.B.R.A. guidelines for a specific number of months following retirement. The Board of County Commissioners may amend the benefit provisions. For multi-year trend information, see Exhibit III.E.5 in Subsection E of Section III of this report.

Funded Status and Funding Progress. As of the most recent actuarial valuation date (December 31, 2009), the County had no assets to pay future liabilities. The actuarial accrued liability for benefits and the unfunded actuarial accrued liability (UAAL) is \$13,359,447. The annual payroll of active employees covered under this plan (covered payroll) was \$28,517,138, and the ratio of the UAAL to the covered payroll was 46.847%. For multi-year trend information concerning the actuarial value of assets, liabilities, and covered payroll, see Exhibit II.D.2.a (Schedule of Funding Progress) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

Contributions. Cleveland County funds the RHC benefit payments and administration expenses on a pay-as-you-go basis through appropriations made in the General Fund operating budget. The County's obligation to contribute to this plan is established and may be amended by the County Board of Commissioners. For the fiscal

year ended June 30, 2011, the County made payments for claims due to post-employment healthcare coverage of \$140,961. For multi-year trend information, see Exhibit II.D.2.b (Schedule of Employer Contributions) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

Annual Required Contribution. The annual required contribution for the current year was determined as part of the December 31, 2009 actuarial valuation using the projected unit credit actuarial cost method. The actuarial assumptions included projected rate increases to medical costs of 5.0% to 10.5% per year, including an inflation component of 3.75%. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The current rate is 5.0809% of annual covered payroll. The remaining amortization period at December 31, 2009 is 30 years. For multi-year trend information, see Exhibit II.D.2.b (Schedule of Employer Contributions) and Exhibit II.D.2.c (Notes to Financial Schedules) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

Annual OPEB Cost and Net OPEB Obligation. The County's annual OPEB cost and net OPEB obligation to OPEB-RHC for the current year ended June 30, 2011 are \$1,390,893 and \$3,665,901, respectively. The calculation of annual OPEB cost is based on the County's annual required contributions (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For more information and additional calculations, see Exhibit II.D.2.b (Schedule of Employer Contributions) and Exhibit II.D.2.c (Notes to Financial Schedules) presented as required supplementary information in Subsection D that follows these *Notes to Financial Statements*.

3. Closure and Post-Closure Care Costs - Solid Waste Landfill Facility

State regulations permit the County to establish a reserve fund to accumulate resources for the payment of closure and post-closure care costs of its landfill facility. This reserve fund is reported as part of the Solid Waste Fund, which is the County's sole enterprise-type fund. During the fiscal year ended June 30, 2011, the County closed its reserve fund by removing \$5,232,782. The County has also met the requirements of a local government financial test that is one option under State and federal laws and regulations that help determine if a unit is financially able to meet closure and post-closure care requirements. The County has elected to use the local government financial test to prove its ability to afford closure and post-closure care costs as needed.

State and federal laws and regulations require the County to place a final cover on its landfill facility when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post-closure care costs as an operating expense in each period in advance of any cash payments. The \$7,259,762 reported as landfill closure and post-closure care liability at June 30, 2011 represents a cumulative amount reported to-date following an increase of \$3,527,692 in the reported liability for future costs and a reduction of \$1,500,710 for closure costs paid during the year.

The County is required to increase its reported liability at least \$321,878 annually hereafter until the total amount reaches \$9,404,230. These figures are adjusted each year for inflation and changes in technology. These reported amounts are based on what it would cost to perform all closure activities in the year ended June 30, 2011 and the

fact that the County closed an existing municipal solid waste facility in the winter of 2009/2010 and expects to close the current construction and demolition facility in 2018. Post-closure care and corrective action costs, if any, are not included in this calculation. Actual costs may be higher due to inflation, changes in scheduled closing dates, changes in technology, or changes in regulations.

4. Deferred / Unearned Revenues

Deferred revenues are reported in the Fund Financial Statements, but not in the Government-Wide Financial Statements. The balance in unearned and deferred revenues on the fund statements and unearned revenues on the Government-Wide Statement of Net Assets at year-end is composed of the following elements:

	Unearned		Deferred	
Reporting Fund / Revenue Item	Revenues			Revenues *
General Fund:				
Prepaid taxes not yet earned	\$	120,657	\$	-
Other accounts, net		1,732,318		428,294
Taxes receivable, net		185,761		2,077,174
Subtotal		2,038,736		2,505,468
Capital Projects Fund, grant receivables		-		460,885
County Fire Service District Fund, taxes receivable, net		5,702		39,869
Community Development Fund, grant receivables		803,456		162,568
Total Governmental Activities	\$	2,847,894	\$	3,168,790
Solid Waste Fund-Collection and Disposal:				
Prepaid fees not yet earned	\$	2,680	\$	_
Total Business-Type Activities	\$	2,680	\$	

5. Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County participated in a self-funded risk-financing pool administered by the North Carolina Association of County Commissioners. Through this pool, the County obtained property coverage equal to replacement cost values of owned property subject to a limit as outlined in the contract per occurrence with an annual aggregate of \$125.5 million, with other sub-limits for other coverages. The County also purchased general, automobile, public officials, law enforcement, and employment practices liability coverage of \$2 million per occurrence, auto physical damage coverage for owned autos at actual cash value, and crime coverage of \$250,000 per occurrence. The pool is audited annually by certified public accountants, and the audited financial statements are available to the County upon request. For liability and property, the pool is reinsured through a multi-state public entity captive for single occurrence losses in excess of \$500,000 per occurrence and an additional \$1,500,000 annual aggregate up to a \$2 million limit for liability coverage, and \$600,000 of aggregate annual losses in excess of \$50,000 per occurrence for property, automobile physical damage, and crime coverage.

Effective July 1, 2002, the County became self-insured for health insurance coverage on a cost-reimbursement basis. Under this program, the County is obligated for claims payments. As of July 1, 2007, employees have the option of choosing either a P.P.O. plan or H.S.A. plan. A stop-loss insurance contract executed with an insurance carrier covers claims in excess of \$75,000 per person. The estimated liability for outstanding losses includes \$610,007 for incurred and unpaid claims as of June 30, 2011. The County has contracted with a private insurer to administer the payment of claims and the County reimburses the insurer each week.

The County also operates a dental plan on a cost-reimbursement basis up to \$1,025 per person per year. The estimated liability for outstanding losses includes \$30,949 for incurred and unpaid claims as of June 30, 2011. The County reimburses qualified claims to employees and their eligible dependents each month.

The County has also established a Workers' Compensation Self-Insurance program for the purpose of providing medical and indemnity payments as required by law for on-the-job related injuries. The County purchases workers' compensation coverage up to the statutory limits. Under the program, the County has obtained reinsurance coverage for excess workers' compensation and employer's liability. The retention (deductible) for the policy for the year ended June 30, 2011 is \$400,000 per occurrence. The estimated liability for outstanding losses includes \$100,000 for incurred and unpaid claims as of June 30, 2011. The County has contracted with a private insurer to administer the payment of claims and the County reimburses the insurer each week.

The following table summarizes the amount of insurance claims payable at year-end for the various coverages described above:

Insurance Claims Payable (incurred but not reported)	Jun	e 30, 2010	June 30, 2011		
General Fund:					
Health insurance coverage	\$	537,813	\$	610,007	
Dental plan		30,949		30,949	
Workers' compensation coverage		100,000		100,000	
Total	\$	668,762	\$	740,956	

In accordance with NCGS 159-29, County employees that have access to County funds are performance bonded through a commercial surety bond. The County Finance Director and Tax Collector are individually bonded for \$50,000 and \$25,000, respectively. Also, all employees are bonded under a blanket bond for \$250,000 per incident.

In addition, the County carries commercial coverage for other risks of loss, including limited coverage for floods and other natural disasters as set by the insurance carrier. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in, at a minimum, any of the past five fiscal years.

6. Claims, Judgments, and Contingent Liabilities

The County has received proceeds from several federal and State grant awards. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any refunds required as a result of such audits will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant revenue.

At June 30, 2011, the County was a defendant to various lawsuits. In the opinion of the County's management and the County attorney, the ultimate effect of these legal matters will not have a material adverse effect on the County's financial position.

7. Long-Term Obligations

a. Capital Leases

The County has entered into agreements to lease certain computer equipment. The lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception. The present value of the future minimum lease payments (see 'Net Present Value' in table below) is equal to the current outstanding principal of the capital lease.

An agreement to lease computer equipment for the Information Technology department was executed in July 2009 and required 60 monthly payments of \$1,494. Another agreement to lease computer equipment for the Social Services department was executed in June 2007 and requires 60 monthly payments of \$1,464. And, an agreement to lease imaging and related computer equipment for the Register of Deeds' office was executed in November 2007 and requires 60 monthly payments of \$2,864.

In each of these agreements, title passes to the County at the end of the lease term. These payments are recorded as debt service expenditures in the General Fund. The outstanding principal payments, along with interest payments scheduled for the ensuing year, are recorded in the Government-Wide Statement of Net Assets.

At June 30, 2011, the County's leased equipment had a value of:

	Rec	orded Value of	Accumulated		
Governmental Activities		Asset	Depreciation	Net	Present Value
Computer equipment (Social Services)	\$	75,075	\$ (58,692)	\$	16,383
Imaging equipment (Register of Deeds)		180,715	(108,341)		72,374
Computer equipment (Info. Tech.)		81,095	(29,182)		51,913
Total	\$	336,885	\$ (196,215)	\$	140,670

More information on the annual requirements of these leases are found under *e. Total Indebtedness*.

b. General Obligation and Limited Obligation Bonds

All general obligation serviced by the County are collateralized by the full faith, credit, and taxing power of the County. The County sold limited obligation bonds to investors to finance the construction of a new middle school in Shelby and such bonds are considered a variation of the installment purchase loan mentioned below. When due, principal and interest payments are appropriated in the County's Debt Service Fund. The face value of the outstanding bonds are recorded in the Government-Wide Statement of Net Assets, along with any accrued interest payable at year-end. More information on these bonds are found under *e. Total Indebtedness*.

c. Installment Purchase Loans

The County has entered contracts to help finance the costs of implementing a Public Safety Communication System in 2007, the costs of expanding and renovating the Detention Center Annex Expansion in 2009, and the costs of constructing a multi-use facility at Cleveland Community College through direct loans from a financial institution. When due, principal and interest payments are appropriated in the County's Debt Service Fund. The face value of the outstanding loans are recorded in the Government-Wide Statement of Net Assets, along with any accrued interest payable at year-end. More information on these bonds are found under *e. Total Indebtedness*.

d. Contractual Obligations

The County entered a contract with the City of Shelby to help finance the costs of constructing the Broad River Waterline. In FY 2005, the City of Shelby issued \$12,255,000 of debt to finance this project and other projects. The County's portion of that original principal debt is \$634,599. When due, principal and interest payments are appropriated in the County's Debt Service Fund. The face value of the outstanding bonds are recorded in the Government-Wide Statement of Net Assets, along with any accrued interest payable at year-end. More information on these bonds are found under *e. Total Indebtedness*.

e. Total Indebtedness

In addition to the County's own needs, the County issues debt on behalf of both the public schools and the community college and makes the necessary and related debt service payments. Prior to 2010, the public schools and the community college, however, held title to these constructed assets. Beginning with debt that the County issued in 2010, the County will hold title until the loan is paid.

At June 30, 2011, Cleveland County had an amount of bonds authorized but un-issued of \$-0- and a legal debt margin of \$453,744,179. During the year, the County did not use short-term borrowings or interest rate swaps.

The County's general obligation bonds, limited obligation bonds, installment purchase loans, and contractual obligations payable at June 30, 2011 are comprised of the following individual issues:

General Obligation Bonds	tstanding at ne 30, 2011
\$3,100,000 - Community College Bonds, Series 1998;	\$ 1,350,000
due in annual installments of \$100,000 to \$250,000 through June 1, 2017;	
interest from 4.60% to 4.70%	
Limited Obligation Bonds	
\$22,000,000 - New Middle School in Shelby, Series 2010A&B	20,920,000
due in annual installments of \$1,080,000 to \$1,140,000 through March 2030;	
interest from 4.49% to 6.07%; interest payments partially subsidized by federal govt;	
payments due to Wells Fargo Bank	
Installment Purchase Loans	
\$6,000,000 - Public Safety Communication Equipment, Series 2007;	4,800,000
due in annual installments of \$400,000 through December 2022;	
interest at 3.93%; payments due to BB&T	
\$6,720,000 - Detention Center Annex Expansion Project, Series 2009;	5,824,000
due in semi-annual installments of \$224,000 through April 2024;	
interest at 3.57%; payments due to BB&T	
\$17,582,950 - Community College Building Project, Series 2010C&D	16,996,852
due in semi-annual installments of \$586,098.33 through September 2025;	
interest at 4.91%; interest payments partially subsidized by federal govt;	
payments due to BB&T	
Subtotal Installment Purchase Loans	27,620,852
Contractual Obligations	
\$12,255,000 - City of Shelby Enterprise System Revenue Bonds, Series 2004;	527,926
due in annual installments of \$315,000 to \$810,000 through May 1, 2029;	
County's portion of revenue bonds (\$634,599) per contract with City of Shelby are	
due in annual installments of \$16,312 to \$41,944 through May 1, 2029;	
interest at 5.00%; payments due to City of Shelby	
Total	\$ 50,418,778

Annual debt service requirements to maturity for general and limited obligation bonds, other long-term debt (comprised of installment purchase loans and contractual obligations), and capitalized leases are as follows:

f. Conduit Debt Obligations

Cleveland County Industrial Facility and Pollution Control Authority has issued industrial revenue bonds to provide financial assistance to private businesses for economic development purposes. These bonds are secured by the properties financed as well as letters of credit and are payable solely from payments received from the private businesses involved. Ownership of the acquired facilities is in the name of the private business served by the bond issuance. As of June 30, 2011, there were four series of industrial revenue bonds outstanding, with an aggregate principal amount payable of \$23,130,000. Neither the County, the Authority, the State, nor any political subdivision thereof is obligated in any manner for the repayment of these bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

g. Compensated Absences (Accrued Leave)

All business-type activities relate to the environmental protection expenditure function. Accrued leave activity, by type of leave, for the year ended June 30, 2011 was as follows for <u>Business-Type Activities</u>.

	В	eginning						Ending	\mathbf{D}_{i}	ifference
Business-Type Activities	I	Balance Additions Red		Additions Reductions Balance		ce Additions Reductions		Balance		Expense)
Vacation Leave (accrued)	\$	93,211	\$	68,516	\$	(60,862)	\$	100,865	\$	7,654

Sick Leave (unaccrued)		91,863		58,086		(52,021)		97,928		6,065
Subtotal (unaccrued)		98,934		64,426		(61,699)		101,661		2,727
Grand Totals	\$	239,047	\$	194,595	\$	(200,322)	\$	233,320	\$	(5,727)

Compensated absences typically have been liquidated in the general fund. The County has assumed a first-in, first-out method of using accumulated compensated leave time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability. The following table displays the changes in earned leave, sick leave, and the portion of compensatory leave for which no accrual is recognized, by expenditure functions/programs of governmental activities. Additional personnel expenses were charged to functions/programs as shown under "Difference (or Expense)" to both the current and non-current portions of the accrued liability on the Government-Wide Financial Statements.

Governmental Activities	Beginning Balance	A	dditions	Reductions		Ending Balance		ifference Expense)

C. Interfund Activity and Balances

Interfund transfers enable the County to move unrestricted revenues from one fund to another fund to sustain programs that must be reported in the other fund. Also, see 'Exhibit II.E.02' in Subsection E of Section II. Transfers to/from other funds for the year ended June 30, 2011 consists of the following:

Activity description	Ar	nount
From General Fund to Community Development Fund	\$	94,913
for portion of roadway expansion above the amount of the grant		
From General Fund to Debt Service Fund		1,909,966
for payments on outstanding long-term debt		
From General Fund to Capital Projects Fund		1,283,781
for current capital projects activity and accumulating resources for future capital projects	-	
Subtotal from General Fund		3,288,660
From Capital Projects Fund to General Fund		1,936,014
for current capital projects activity of the school system		4 =00 (00
From Capital Projects Fund to Debt Service Fund		1,589,689
for payments on outstanding long-term debt used for construction of school buildings		
Subtotal from Capital Projects Fund		3,525,703
From Emergency Telephone Fund to General Fund		69,097
for a portion of costs of personnel involved in supporting fund activities		
From Solid Waste Fund to General Fund		335,925
for a portion of costs of personnel involved in supporting fund activities		
and for workers' compensation		
Total interfund activity	\$	7,219,385

Due to/from balances represent advances/reimbursements to be made among funds based upon the fact that the County utilizes a central depository for processing receipts and payments. For example, numerous payments were made following the receipt of invoices after June 30 for services performed or goods received prior to June 30. All interfund balances are expected to be offset with recorded transfers in the ensuing fiscal year. The composition of interfund balances as of June 30, 2011 is as follows:

	Due from			Due from	Due to	
Reporting Fund	Gen	eral Fund	Other Funds		O	ther Funds
Governmental Funds						
General Fund	\$	-	\$	2,048,873	\$	177,824
Capital Projects Fund		169,786		-		1,617,723
Emergency Telephone Fund		507		-		-
County Fire Service District Fund		7,531		-		-
Community Development Fund		-		-		288,179
Debt Service Fund		-		-		142,971
Total Interfund Balances	177,824		2,048,873			2,226,697

D. Fund Balance

Restrictions of fund balance represent amounts that either are legally segregated for a specific purpose or are not appropriable. NCGS 159-13(b)(16) restricts the appropriation of fund balance to an amount not to exceed the sum of cash and investments less liabilities (not including deferred revenues not arising from cash receipts) and less encumbrances as calculated at the end of the fiscal year preceding the appropriation. This calculated amount represents fund balance available for appropriation and is reflected in the following table:

			Ca	pital Projects	(Other Non-
Item Description	G	eneral Fund		Fund	M	ajor Funds
Fund balance available for appropriation						
Cash and Investments	\$	19,228,042	\$	26,683,060	\$	2,974,766
Liabilities		(7,943,559)		(6,600,560)		(1,830,588)
Deferred revenues not arising from cash receipts		2,505,468		460,885		202,437
Encumbrances		(206,589)		(20,124,066)		(82,721)
Fund balance available for appropriation		13,583,362		419,319		1,263,894
D						
Restricted for Stabilization of State Statute						
Total fund balance		22,281,639		22,459,097		1,900,034
Fund balance available for appropriation		(13,583,362)		(419,319)		(1,263,894)
Fund balance not available for appropriation		8,698,277		22,039,778		636,140
Nonspendable fund balance		(285,701)		(1,080)		(832)
Restricted for Stabilization of State Statute	\$	\$ 8,412,576		22,038,698	\$	635,308

Outstanding encumbrances are remaining amounts needed to pay incomplete commitments related to purchase orders and contracts at year-end.

After accounting for nonspendable fund balance, Restricted for Stabilization of State Statute is the remaining non-appropriable portion of fund balance. The Board of County Commissioners seeks to conduct the financial affairs of the County in such a manner so as to achieve a fund balance available for appropriation in the General Fund of at least 8% of appropriations (a.k.a. budgeted expenditures).

Remaining fund balances may be restricted, committed, or assigned for other purposes. Unassigned fund balance represents the amount of fund balance that could still be committed or assigned.

To provide guidance in situations involving multiple revenue sources, the County will use resources in the following order: cost-reimbursement grant funds, federal-source funds, state-source funds, other non-debt third-party-source funds, debt proceeds, and County funds. Likewise, the County intends to expend resources that have been classified as fund balance in the following order: restricted, committed, assigned, and unassigned. The County Finance Director is authorized to deviate from this policy to comply with funding stipulations and when in the best interest of the County.

E. Net Assets

Net assets in the Fund Financial Statements of the Solid Waste Fund and in the Government-Wide Financial Statements are classified as "unrestricted," "restricted," or "invested in capital assets, net of related debt." Restricted net assets represent constraints on resources that are either a) imposed by law through State statute or b) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments. The balance of restricted net assets at June 30, 2011, consists of the following:

	Beginning		
Governmental activities	Balance	Activity	Ending Balance
General government	-45,204.45	45,204.45	0.00
Register of Deeds Automation Fund (3.994.19)	-45,204.45	45,204.45	0.00

Economic and physical development	53,266.99	996,075.31	1,049,342.30
Community Development Cash (FD29)	0.00	997,283.00	997,283.00
Unspent Coop Exp Special Project	24,895.22	-1,207.69	23,687.53
Unspent Soil Conservation Special Project	28,371.77	0.00	28,371.77
Culture and recreation	133,068.66	-2,764.92	130,303.74
Unspent Library Donations	133,068.66	-2,764.92	130,303.74
Total ₌	13,033,907.85	-4,601,973.88	8,542,484.97

The component called "invested in capital assets, net of related debt" reports the total amount of capital assets as reduced by accumulated depreciation and remaining outstanding debt used to finance the purchase or construction of any capital assets. The balance of this account at June 30, 2011, consists of the following:

	Beginning		Ending
Governmental Activities:	Balance	Activity	Balance
Capital Assets	\$ 149,393,833	\$ 31,729,531	\$ 181,123,364
Adjustments for depreciation and related debt			
Depreciation on capital assets	(42,390,673)	(4,382,270)	(46,772,943)
Bonds issued for capital purposes, current portion	(1,928,000)	(1,172,196)	(3,100,196)
Leases issued for capital equipment, current portion	(63,274)	(2,332)	(65,606)
Bonds issued for capital purposes, future portion	(31,544,000)	(13,896,655)	(45,440,655)
Leases issued for capital equipment, future portion	(115,556)	65,606	(49,950)
Subtotal adjustments	(76,041,503)	(19,387,847)	(95,429,350)
Invested in Capital Assets, Net of Related Debt	\$ 73,352,330	\$ 12,341,684	\$ 85,694,014

Unrestricted net assets is the remainder of net assets not classified as either restricted or invested in capital assets, net of related debt.

F. Occupancy Taxes

Under State law, all occupancy taxes shall be spent for tourism promotion and other economic development activities. To meet that purpose, all occupancy taxes are distributed to Cleveland County Chamber, which is a separate non-profit entity.

Note c: **JOINT VENTURES**

The County, in conjunction with the State of North Carolina and Cleveland County Board of Education (the local area school board), participates in a joint venture to operate the Cleveland Community College (CCC). The County, the State of North Carolina, and Cleveland County Board of Education each appoint four members of the thirteen-member Board of Trustees of CCC. The president of the community college's student government serves as an ex-officio non-voting member of the Board of Trustees of CCC. The County has the basic responsibility for providing funding for the facilities of the community college and also provides some financial support for the community college's operations. The County has an ongoing financial responsibility for the community college because of the statutory responsibilities to provide funding for the community college's facilities. The County contributed \$1,415,129 for operating purposes and an additional \$75,000 for capital purposes during the fiscal year ended June 30, 2011 to Cleveland Community College.

The County paid an additional \$1,454 to CCC for training courses and course materials for employees. And, \$626 was sent on behalf of clients to assist with tuition.

Beginning in fiscal year 2008, the County agreed to help pay for a temporary facility for an early college high school. For this purpose, the County paid \$35,800 to CCC for the fiscal year ended June 30, 2011. The County is funding their portion of this project through the Capital Projects Fund. For more information, see 'Exhibit II.D.4.i' in Subsection D of Section II of this report.

In addition to providing annual appropriations for the facilities, the County periodically borrows money for new and restructured facilities. In August 2010, the County borrowed \$17,582,950 for a new multi-purpose facility to be named the LeGrand Center. During the fiscal year, the County made debt service payments of \$250,000 on general obligation bonds and \$586,098 on installment purchase loan from BB&T issued for community college capital facilities. After these payments, \$1,350,000 in general obligation bond debt remains outstanding and \$16,996,852 in installment purchase loan debt remains outstanding.

The participating governments do not have any equity interest in the joint venture; therefore, no equity interest has been reflected in the County's financial statements. Instead, the community college is included as a component unit of the State. Complete financial statements for the community college may be obtained from Cleveland Community College, Administrative Offices, 137 South Post Road, Shelby, North Carolina 28150.

Note d: **JOINTLY GOVERNED ORGANIZATION**

The County, in conjunction with three other counties and twenty municipalities, established the Isothermal Planning and Development Commission (IPDC). The participating governments established this commission to coordinate various funding received from federal and State agencies. Each participating government appoints one member to IPDC's governing board. The County paid membership fees of \$16,307 to IPDC during the fiscal year ended June 30, 2011. The County paid an additional \$43,566 to IPDC to coordinate and administer the Community Development Block Grant and related grant awards and \$28 to IPDC to maintain a database of information on clients participating in certain programs.

The following is a list of grants that passed through IPDC during the fiscal year ended June 30, 2011:

		State or	Federal	State
	Federal	Pass-Thru	(Direct and	(Direct and

Note e: HOSPITAL LEASE AGREEMENT

The County has entered into a lease agreement, as amended, with Cleveland Regional Medical Center, hereafter CRMC, and the Charlotte-Mecklenburg Hospital Authority under which CRMC will lease certain local hospital and medical facilities in Cleveland and Rutherford counties. Under amendments to the agreement adopted by the County during 2004, the lease term is from October 1, 1997 to January 1, 2019. Pursuant to the amended agreement, all added facilities on County land become County property. Also, CRMC will remit a lump-sum lease payment of \$1,450,000 each year to the County beginning January 2005.

Note f: BENEFIT PAYMENTS ISSUED BY THE STATE

The amounts listed below were paid directly to individual recipients by the State from federal and State monies. County personnel are involved with certain functions, primarily determination of eligibility, that cause benefit payments to be issued by the State. These amounts disclose this additional aid to County recipients that do not appear in the Basic Financial Statements because they are neither revenues nor expenditures of the County.

Note g: <u>STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY</u>

With regard to matters of stewardship, compliance, and accountability, the County discloses the following as the only such matters that require disclosure.

A. Deficit in Fund Balance of Individual Funds

Due to expected grant revenues not yet received as reimbursement for expenditures made, the Community Development Fund has a deficit in fund balance. With regard to grant reimbursements, the County is at the mercy of the grantor as to when such reimbursement will be made. The County has sufficient financial resources to sustain activity while waiting for reimbursements to arrive.

Note h: PRIOR PERIOD ADJUSTMENTS

With implementation of Governmental Accounting Standards Board (GASB) Statements No. 54 ("Fund Balance Reporting and Governmental Fund Type Definitions"), the County has consolidated certain funds for budgeting and reporting purposes. Both the Public Schools Fund and the Revaluation Fund reported in previous reports have now been consolidated into the General Fund. Also, both the Schools Capital Reserve Fund and the County Capital Reserve Fund reported in previous reports have now been consolidated into the Capital Projects Fund. As a result of these consolidations, the fund balance of these prior funds have been consolidated with their parent fund and the restated fund balances are shown in the financial statements. The reported ending fund balance of the General Fund for the fiscal year ended June 30, 2010 has increased by \$51 from the Public Schools Fund and \$-0-from the Revaluation Fund, resulting in an ending fund balance of \$23,582,128. And, the reported ending fund balance of the Capital Projects Fund for the fiscal year ended June 30, 2010 has increased by \$6,650,462 from the Schools Capital Reserve Fund and \$26,341,019 from the County Capital Reserve Fund, resulting in an ending fund balance of \$32,857,880. No other restatements were necessary.

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011 II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION D. Required Supplementary Information:

INFORMATION PERTAINING TO THE FISCAL YEAR ENDED JUNE 30, 2011

The actuarial valuation for the fiscal year ended June 30, 2011 is based on the annual payroll for law enforcement officers in the calendar year ended December 31, 2009. The actuary's corresponding calculations are shown below.

ANNUAL PAYROLL FOR THE PERIOD ENDED DECEMBER 31, 2009

	Number		Amount
1) active members - current annual compensation	87	\$	3,417,424
2) retired members - current annual benefits	4		41,374
total annual payroll		\$	3,458,798

total liabilities, as of December 31, 2009	\$ 1,353,424

ANNUAL REQUIRED CONTRIBUTION FOR THE YEAR ENDED JUNE 30, 2011

The annual required contribution for the year ended June 30, 2011 is calculated as of December 31, 2009. The annual required contribution is comprised of 1) the value of benefits expected to be earned during the fiscal year by active employees and 2) a portion of the value of benefits earned during previous fiscal years by employees that were active in previous years. Below, both values are expressed as a percentage of the total annual payroll as calculated in the section above.

	Rate *	Amount
1) value of benefits earned during the current year	2.3986%	\$ 81,971

INFORMATION PERTAINING TO THE FISCAL YEAR ENDING JUNE 30, 2012

The actuarial valuation for the fiscal year ending June 30, 2012 is based on the annual payroll for law enforcement officers in the calendar year ended December 31, 2010. The actuary's corresponding calculations are shown next, except that the calculation for the Net Pension Obligation (NPO) is based on other information not yet available. Therefore, NPO will be shown with the County's subsequent annual financial and compliance report.

ANNUAL PAYROLL FOR THE PERIOD ENDED DECEMBER 31, 2010

	Number	Amount
1) active members - current annual compensation	91	\$ 3,336,824
2) retired members - current annual benefits	7	100,186

ADDITIONAL INFORMATION USED BY THE ACTUARY

The primary purpose of the actuarial valuation is to determine the annual required contribution for each fiscal year. In preparing the valuation, the actuary relied on data provided by Cleveland County and the NC-LGERS. To verify the data, the actuary performed tests for reasonableness and consistency. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information used to actuarially determine the annual required contribution for the reported fiscal year and the subsequent fiscal year follows:

Amortization Method of Unfunded Liability (for both yea	Level percent of pay, closed basis			
Actuarial Cost Method (for both years shown) **		Projected unit cr	Projected unit credit **	
Asset Valuation Method (for both years shown)		Market value		
For the Year Ended	June 30, 2011		June 30, 2012	
Valuation Date	Dec 31, 2009		Dec 31, 2010	
Remaining Amortization Period	21 years		20 years	
Actuarial Assumptions (projected rates):				
Projected Rate of Adjustments for Cost-of-Living	0.00%		0.00%	
Projected Rate of Return on Investments *	5.00%		5.00%	
Projected Rate of Salary Increases *	4.5 to 12.3%		4.25 to 7.85%	
* Includes Projected Rate of Inflation	3.75%		3.00%	

^{**} Under the projected unit credit method of valuing the actuarial cost, the projected benefits of each individual included in the actuarial valuation are allocated to valuation years based on service. The actuarial present value of benefits allocated to the current year is called the normal cost. The actuarial present value of benefits allocated to all periods prior to the valuation year is called the actuarial accrued liability. The excess of the actuarial accrued liability over current assets is the unfunded actuarial accrued liability. The actuarially determined contribution requirements consist of the normal cost and amortization of the unfunded actuarial accrued liability within a 25-year period, assuming inflation will grow at 3.75% annually.

The following table displays the number of plan members participating in this pension plan at June 30 of each of the last twelve fiscal years.

Fiscal Year Ended June 30	Retirees Receiving Benefits	Other * Plan Members	Vested Plan Members	Non-Vested Plan Members	Total Plan Members

INFORMATION PERTAINING TO THE FISCAL YEAR ENDED JUNE 30, 2011

The actuarial valuation for the fiscal year ended June 30, 2011 is based on the annual payroll for all employees in the calendar year ended December 31, 2009. The actuary's corresponding calculations are shown below.

Number

ANNUAL PAYROLL FOR THE PERIOD ENDED DECEMBER 31, 2009

1) active members - current annual compensation	703	\$	28,517,138
2) retired members - current annual benefits	59		-
total annual payroll		\$	28,517,138
VALUATION BALANCE SHEET FOR THE PERIOD	ENDED DEC	EMDED	21 2000
	ENDED DECI	EMIDEK	31, 2009
Present and Prospective Assets			
present assets		\$	-
present value of future (unfunded) accrued liability contributions			13,359,447
total assets, as of December 31, 2009		\$	13,359,447
Accrued Actuarial Liabilities = present value of benefits payable in res	pect of:		
present retired members and beneficiaries	•	\$	3,533,894
present active members			9,825,553
total liabilities, as of December 31, 2009		\$	13,359,447

ANNUAL REQUIRED CONTRIBUTION FOR THE YEAR ENDING JUNE 30, 2011

The annual required contribution for the year ended June 30, 2011 is calculated as of December 31, 2009. The annual required contribution is comprised of 1) the value of benefits expected to be earned during the fiscal year by active employees and 2) a portion of the value of benefits earned during previous fiscal years by employees that were active in previous years. Below, both values are expressed as a percentage of the total annual payroll as calculated in the section above.

	Rate *	Amount
1) value of benefits earned during the current year	2.5033%	\$ 713,861
2) portion of value earned and not contributed in previous years	1.6167%	461,030
total annual required contribution	4.1199%	\$ 1,174,891

NET OPEB OBLIGATION (& ANNUAL OPEB COST) FOR THE YEAR ENDED JUNE 30, 2011

Net OPEB Obligation, as of June 30, 2010			\$ 2,415,969
annual required contribution	\$ 1,377,628		
adjustment to annual required contribution	(83,374)		
interest on net OPEB obligation	96,639		
annual OPEB cost	\$	1,390,893	
contributions		(140,961)	
Change in net OPEB obligation	·		1,249,932
Net OPEB Obligation, as of June 30, 2011			\$ 3,665,901

II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

D. Required Supplementary Information:

2. Other Post-Employment Benefits-Retirees Healthcare Coverage Financial Schedules c. Notes to OPEB-RHC Financial Schedules

ADDITIONAL INFORMATION USED BY THE ACTUARY

The primary purpose of the actuarial valuation is to determine the annual required contribution for each fiscal year. In preparing the valuation, the actuary relied on data provided by Cleveland County and the NC-LGERS. To verify the data, the actuary performed tests for reasonableness and consistency. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information used to actuarially determine the annual required contribution for the reported fiscal year and the subsequent fiscal year follows:

Amortization Method of Unfunded Liability (for both years shown)	level percent of pay, open basis
Actuarial Cost Method (for both years shown) **	projected unit credit **
Asset Valuation Method (for both years shown)	market value
For the Year Ended	June 30, 2011
Valuation Date	Dec 31, 2009
Remaining Amortization Period	30 years
Actuarial Assumptions (projected rates):	
Projected Rate of Increases to Medical Costs	5.0% to 10.5%
* Year of Ultimate Trend Rate	2017
Projected Rate of Return on Investments *	4.00%
* Includes Projected Rate of Inflation	3.75%

** Under the projected unit credit method of valuing the actuarial cost, the projected benefits of each individual included in the actuarial valuation are allocated to valuation years based on service. The actuarial present value of benefits allocated to the current year is called the normal cost. The actuarial present value of benefits allocated to all periods prior to the valuation year is called the actuarial accrued liability. The excess of the actuarial accrued liability over current assets is the unfunded actuarial accrued liability. The actuarially determined contribution requirements consist of the normal cost and amortization of the unfunded actuarial accrued liability within a 30-year period, assuming inflation will grow at 3.75% annually.

The following table displays the number of plan members participating in this benefit plan at June 30 of each of the last twelve fiscal years.

Fiscal Year	Retirees	Other *	Vested	Non-Vested	Total
Ended	Receiving	Plan	Plan	Plan	Plan
June 30	Benefits	Members	Members	Members	Members
2011	59 50	0	91	612	762 762
2010	59	0	91	612	762
2009	55	0	114	578	747

^{*} Other Plan Members includes only terminated plan members entitled to, but not yet receiving, benefits as of year-end.

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011

II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

D. Required Supplementary Information:

4. Non-major Governmental Funds Financial Statements

	Identifier	Page No.
a. Non-major Governmental Funds: Combining Balance Sheet	Exhibit II.D.4.a	108
b. Non-major Governmental Funds: Combining Statement of Revenues, Expenditures, and Changes in Fund Balances	Exhibit II.D.4.b	110
c. Emergency Telephone Fund: Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget to Actual	Exhibit II.D.4.c	112
d. County Fire Service District Fund: Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget to Actual	Exhibit II.D.4.d	113
e. Community Development Fund: Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget to Actual (since projects' inception)	Exhibit II.D.4.e	114
f. Debt Service Fund: Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget to Actual	Exhibit II.D.4.f	115

The Non-Major Governmental Funds Financial Statements include the combining balance sheet and combining statement of revenues, expenditures, and changes in fund balance for non-major Special Revenue Funds, Debt Service Fund, and Capital Projects Funds that comprise the other governmental, non-major funds column in the Basic Financial Statements. The individual fund financial statements follow the combining statements.

The primary purpose of Special Revenue Funds is to account for the proceeds of designated revenue sources that are restricted by law or administrative action for specific purposes. Items c through h from the list above represent different Special Revenue Funds.

The purpose of the Capital Projects and Capital Reserve Funds is to account for the financial resources segregated for the acquisition or construction of major general capital assets and facilities. The budgets within these funds are adopted for the life of the project. Under the project accounting concept, project expenditures, and revenues are accumulated until the year in which the project is completed.

Cleveland County, North Carolina a. Non-major Governmental Funds: Combining Balance Sheet

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011 II: FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION D. Required Supplementary Information:

D. Required Supplementary Information: 5. Major Enterprise Fund Financial Schedule

	Identiner	Page No.
a. Solid Waste Fund: Schedule of Revenues and Expenditures Budget to Actual; non-GAAP modified accrual basis	Exhibit II.D.5.a	117

The County's sole Enterprise Fund is the Solid Waste Disposal and Collection Fund. This fund is used to account for the operations in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods and services to the general public be recovered through user charges.

The following schedule presents the results of operations for the Enterprise Fund on the modified accrual basis for comparison to the legally adopted budget. In accordance with generally accepted accounting principles, the end of the schedule includes a reconciliation of the modified accrual basis to the full accrual basis.

a. Solid Waste Fund: Schedule of Revenues and Expenditures -- Budget to Actual; non-GAAP modified accrual basis

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011 III: STATISTICAL AND TREND INFORMATION

	Identifier	Page No.
A. Information for Publicly Sold Securities	Subsection III.A	139
B. Revenue Capacity Schedules:	Subsection III.B	145
C. Debt Capacity Schedules:	Subsection III.C	145
D. Demographic, Economic, and Operating Schedules:	Subsection III.D	157
E. Financial Trends Schedules:	Subsection III.E	163

This section includes schedules that illustrate fiscal capacity, financial trends, and other important information of the County. The information has been extracted from current and prior years' financial and compliance reports and other relevant supplemental materials.

Schedules on revenue capacity concern the County's reliance on and changes in property taxes in recent years. Schedules on debt capacity regard the County's reliance on and changes in borrowed funds in recent years. The demographic, economic, and operating schedules help you ascertain the environment in which the County operates. Schedules on financial trends outline the changes in the County's financial status and activities over recent years.

Beginning with implementation of GASB Statement Number 34 with the fiscal year ended June 30, 2003, certain government-wide information is presented on the full accrual basis of accounting. Schedules that present government-wide information will not include information prior to that date.

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011 III: STATISTICAL AND TREND INFORMATION A. Information for Publicly Sold Securities

The pages herein contain information required by Securities and Exchange Commission (SEC) Rule 15c2-12 and pertain to the following:

Issuer: Cleveland County, North Carolina

Contact Person: C. D. Crepps Fiscal Year Ended: June 30, 2011

Reporting Period: July 1, 2011 to September 30, 2011

Six-Digit Cusips: 186036 & 18604S

Subject: Notice of Filing of Annual Information

As required by the undertaking, the "Issuer" certifies that the required annual financial information, as described in the susceptible final official statements, has herewith been provided in a timely manner to the continuing disclosure service of the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system ("EMMA"). I am duly authorized by the "Issuer" and have sufficient information available to make this certification regarding all subject obligations issued with the "Six-Digit Cusips" assigned to "Issuer".

Subject: Certification of Material Events Notice

SEC Rule 15c2-12(b)(5)(iii) requires an "Issuer" or other obligated person to provide notice within ten business days of any of the following events with respect to the various publicly offered securities:

- 1. Principal and interest payment delinquencies
- 2. Non-payment related defaults, if material
- 3. Unscheduled draws on debt service reserves reflecting financial difficulties
- 4. Unscheduled draws on credit enhancements reflecting financial difficulties
- 5. Substitution of credit or liquidity providers, or their failure to perform
- 6. Adverse tax opinions, IRS notices, or material events affecting the tax status of the security
- 7. Modifications to rights of security holders, if material
- 8. Bond calls, if material, and tender offers
- 9. Defeasances
- 10. Release, substitution, or sale of property securing repayment of the securities, if material
- 11. Rating changes
- 12. Bankruptcy, insolvency, receivership, or similar event of the County
- 13. Merger, consolidation, acquisition, or sale of all or substantially all assets of the County
- 14. Appointment of a successor or additional trustee or the change of name of a trustee, if material
- 15. Failure to file continuing annual information disclosure, both timely and accurately

I hereby certify that there have been no occurrences of the events listed above that are of a material nature during the "Fiscal Year Ended", or subsequent thereto, through the "Reporting Period." I am duly authorized by the "Issuer" and have received no information to the contrary.

Subject: Information Required by Securities and Exchange Commission Rule 15c2-12

The items in this subsection present certain information required by SEC Rule 15c2-12:	Identifier	Page No.
1. Tax Information and Debt Information (including bonds issued)	Exhibit III.A.1	140
2. Budget Ordinance as of July 1, 2011 - Annually Budgeted Funds	Exhibit III.A.2	141
3. Budget Amended as of September 30, 2011 - Annually Budgeted Funds	Exhibit III.A.3	142
4. Budget Reconciliation as of September 30, 2011 - Annually Budgeted Funds	Exhibit III.A.4	143
Also, other pertinent information, such as the item listed below, can be found in this report.		
List of Principal County Officials	Subsection I.B	11

Respectfully yours,

C. D. Crepps

C. D. Crepps, County Finance Director

⁽a) Cleveland County re-assessed values of property for the fiscal years ended June 30, 2001 and 2005. The County most recently reassessed values of property for the fiscal year ended June 30, 2009. State statutes require adjustment of property's assessed values to 100% of market value at least every eight years. Due to mandated exemptions, deferrals, and other adjustments, the total assessed value will not equal total actual market value. And, no reliable source can determine total actual market value.

Cleveland County, North Carolina

1. Computation of Legal Debt Margin (twelve most recent fiscal years)

Exhibit III.C.1 For the Year Ended June 30, 2011

Fiscal Year Ended June 30	Ended Corporate		Percentage Applied	Legal Debt Limit (A)	Total Long-Term Debt (B)	Legal Debt Margin	Ratio of (B) to (A)	
2011	\$	6,302,036,963	8.0%	\$	504,162,957	\$ 50,418,778	\$ 453,744,179	10.000%

Cleveland County, North Carolina 1. Miscellaneous Information

Exhibit III.D.1

For the Year Ended June 30, 2011

Date of establishment 1841
Area/Size/Square Mileage 464.629

Form of government County with 5 (five) Commissioners and County Manager

Transportation:

Major Highways

Through the County I-85 and U.S. Highway 74

Nearby counties North/South = I-85, I-26, and I-77; East/West = I-40

Air Travel:

Shelby/Cleveland Regional Airport has a runway length of 5,000 feet

Charlotte/Douglas International Airport is located 37 miles east of Shelby

Greenville-Spartanburg International Airport is located 62 miles south of Shelby

Asheville Airport is located 74 miles west of Shelby

Hickory Airport is located 39 miles north of Shelby

Rail Service:

CSX has an East-West main line in the County and has an intermodal facility in Charlotte

Norfolk Southern has a main line and a branch line in the County and has an intermodal facility in Charlotte

Port Access

Charleston, South Carolina (located 222 miles east-southeast of Shelby)

Wilmington, North Carolina (located 238 miles east of Shelby)

Savannah, Georgia (located 254 miles southeast of Shelby)

Morehead City, North Carolina (located 310 miles east of Shelby)

Norfolk/Virginia Beach, Virginia (located 342 miles east-northeast of Shelby)

Other Important Information for Businesses:

North Carolina is a right-to-work State.

The corporate community of the County has no union representation at present.

The county offers Local Industrial Incentive Grants and Tax credits to qualified companies.

Labor force within a 35-mile radius exceeds 600,000.

Electric utility rates, supplied by Duke Power, are among the lowest in the nation.

"A Professional Association of Certified Public Accountants and Management Consultants"

Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Based On An Audit of Financial Statements Performed In Accordance With Government Auditing Standards

To the Board of Commissioners Cleveland County, North Carolina

We have audited the basic financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Cleveland County, North Carolina, as of and for the year ended June 30, 2011, not presented here, which collectively comprise the County's basic financial statements, and have issued our report thereon dated October 26, 2011. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Cleveland County, North Carolina, is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Cleveland County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Cleveland County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Cleveland County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, members of the Board of Commissioners, others within the organization, federal and State awarding agencies, and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

Report On Compliance With Requirements That Could Have a Direct And Material Effect On Each Major Federal Program And Internal Control Over Compliance In Accordance With OMB Circular A-133 And The State Single Audit Implementation Act

To the Board of Commissioners Cleveland County, North Carolina

Compliance

We have audited the compliance of Cleveland County, North Carolina, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. Cleveland County's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Cleveland County's management. Our responsibility is to express an opinion on Cleveland County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the State Single Audit Implementation Act. Those standards, OMB Circular A-133, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Cleveland County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Cleveland County's compliance with those requirements.

In our opinion, Cleveland County complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

The management of Cleveland County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Cleveland County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct, non-compliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material non-compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, members of the Board of Commissioners, others within the organization, federal and State awarding agencies, and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

Report On Compliance With Requirements That Could Have A Direct And Material Effect On Each Major State Program And Internal Control Over Compliance In Accordance With Applicable Sections Of OMB Circular A-133 And The State Single Audit Implementation Act

To the Board of Commissioners Cleveland County, North Carolina

Compliance

We have audited the compliance of Cleveland County, North Carolina, with the types of compliance requirements described in applicable sections of OMB Circular A-133 and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission that could have a direct and material effect on each of its major State programs for the year ended June 30, 2011. Cleveland County's major State programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major State programs is the responsibility of Cleveland County's management. Our responsibility is to express an opinion on Cleveland County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and applicable sections of OMB Circular A-133, as described in the Audit Manual for Governmental Auditors in North Carolina, and the State Single Audit Implementation Act. Those standards, applicable sections of *OMB Circular A-133*, and the State Single Audit Implementation Act, require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major State program occurred. An audit includes examining, on a test basis, evidence about Cleveland County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Cleveland County's compliance with those requirements.

In our opinion, Cleveland County complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major State programs for the year ended June 30, 2011.

Internal Control Over Compliance

The management of Cleveland County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to State programs. In planning and performing our audit, we considered Cleveland County's internal control over compliance with requirements that could have a direct and material effect on a major State program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with applicable sections of OMB Circular A-133, as described in the Audit Manual for Governmental Auditors in North Carolina, and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control* over compliance exists when the design or operation of a control over compliance does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct, non-compliance with a type of compliance requirement of a State program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material non-compliance with a type of compliance requirement of a State program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, members of the Board of Commissioners, others within the organization, federal and State awarding agencies, and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

Cleveland County, North Carolina Annual Financial and Compliance Report For the Year Ended June 30, 2011

IV: SECTION ON COMPLIANCE WITH FEDERAL AND STATE GRANTS

D. Schedule of Expenditures of Federal and State Awards
1. Notes to Schedule of Expenditures of Federal and State Awards

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal and State Awards includes the federal and State grant activity of the County and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in, the preparation of the basic financial statements. For example, direct benefit payments are paid directly to recipients and are only included in the County's basic financial statements as part of Note f, Benefit Payments Issued By the State, in the Notes to Financial Statements. Due to the County's involvement in determining eligibility, they are considered federal awards to the County and are included on this schedule.

The following topics are clustered by the NC Department of Health and Human Services and are treated separately for State audit requirement purposes: Subsidized Child Care, Foster Care and Adoption Assistance, and Child Support Enforcement.

2. Subrecipients

Of the federal and State expenditures presented in the schedule, the County provided federal and State awards to subrecipients as follows:

Program Title	Federal CFDA Number	State or Pass-Thru Grantor Number	Federal (Direct and Pass-Thru) Expenditures		State (Direct and Pass-Thru) Expenditures		County Expenditures	
Emergency Food Program (Commodities)	40.500			227.200
