

ADDENDUM #1

EXCAVATOR

**Bids Due: Wednesday, September 5, 2012
10:00 AM**

Date: August 29, 2012

To: All Prospective Bidders

Please note the following specification changes for the above referenced bid.

1. Changes to read as follows:

Bucket/Boom:

36 inch heavy-duty bucket required with at least a ten foot stick. Bucket linkage pins shall have thick chrome plating. Bucket shall have integrated lift-eye. Heavy-duty teeth and side cutters required. Minimum stick length of 10.2 feet required, boom should have an attachment of 185%, full rotating thumb with **progressive linkage and joystick control.**

Alternate Bid Warranty:

Additionally, bidder shall include a **six (6) year or 10,000 hour (whichever occurs first) extended power train warranty minimum.** Contract to have no deductible on repairs. Bidder must include copy of contract with bid.

During the **six (6) year or 10,000 hours extended power train coverage,** successful Bidder shall guarantee parts delivery, within forty-eight (48) hours of being ordered (except weekends). Parts not delivered within forty-eight (48) hours shall be free of charge to Cleveland County. In the event that excavator is down for more than forty-eight (48) hours through no fault of the County, then the successful bidder shall furnish the County a comparable excavator at no cost to the County for the interim period of time the County's machine is down..

Hours on Bid Form:

That line has been **deleted** since it's a new machine and should not have any hours on it.

We appreciate your interest in doing business with Cleveland County and look forward to receiving your proposal.

Sincerely,
Kim Ogle, Cleveland County Purchasing Tech
